REDi Situational Awareness Response Survey Agency Details 13

Situation Summary

The REDi Healthcare Coalition remains activated in response to the 2019 novel Coronavirus (COVID-19). This report is intended to provide essential information about affected healthcare providers to create situational awareness and support a coordinated response. This report should be considered a resource for information from the REDi Situational Awareness Response Process, REDi Resource Coordination Process, WATrac, and WA Health survey.

Today, the REDi HCC surveyed eastern Washington hospitals, hospice, long-term care, skilled nursing, ambulatory surgical centers, outpatient clinics, and urgent care facilities through the [Situational Awareness Response Process \(SARP\)](#). Results of this survey indicate that most healthcare facilities are continuing to experience a shortage of resources despite support with resource coordination from REDi, local health jurisdictions and the state Department of Health. To view this data, please access the [tableau visualization published here](#).

Data provided through the SARP survey to track the operating conditions for space, staff, and resources/supplies of healthcare facilities is being reviewed at the state level to help determine which phase Washington state is in as a whole. As of May 19, 2020, in coordination with the Washington State Hospital Association (WSHA), the Department of Health (DOH), WA Healthcare Response Management Team, and the three WA Healthcare Coalitions there was consensus that, we as a whole state, are currently in a *contingency care phase*.

In accordance with the Governor's Proclamation [20-24.1 Reducing Restrictions on, and Safe Expansion of, Non-Urgent Medical and Dental Procedures](#), the Healthcare Coalitions have been tasked with tracking the ongoing status of healthcare according to the three standards of care:

- **Conventional capacity definition:** The spaces, staff, and supplies (resources) used are consistent with daily practices within the institution.
 - *Conventional Care Phase – All appropriate clinical care can be provided.*
- **Contingency capacity definition:** The spaces, staff, and supplies used are not consistent with daily practices but provide care that is functionally equivalent to usual patient care.
 - *Contingency Care Phase – All appropriate clinical care can be provided so long as there is sufficient access to PPE and, for hospitals, surge capacity is at least 20%.*
- **Crisis capacity definition:** Adaptive spaces, staff and supplies used are not consistent with usual standards of care but provide sufficiency of care in the context of a catastrophic disaster (i.e. Provide the best possible care to patients given the circumstances and resources available).
 - *Crisis Care Phase – All emergent and urgent care shall be provided; elective care, that the postponement of which for more than 90 days would, in the judgement of the clinician, cause harm; the full suite of family planning services and procedures, newborn care, infant and pediatric vaccinations, and other preventive care, such as annual flu vaccinations, can continue.*

The 20-24.1 proclamation highlighted that each health care or dental facility must develop an expansion/contraction of care plan that is congruent with the COVID-19 assessment described above. These care plans should be operationalized based on the standards of care that are in effect in the health care facility's geography as determined by that region's emergency HealthCare Coalition.

On Friday, May 29th, Governor Inslee [announced](#) the [transition](#) from the Stay home, Stay Healthy order to the [Safe Start – Washington's Phased Reopening plan](#) beginning Monday, June 1st, 2020. The Safe Start plan means Washington state will [reopen in phases on a county-by-county basis](#). With this new approach, counties will have more flexibility to demonstrate they can safely allow additional economic activity based on targeted metrics and a holistic review of their COVID-19 activity and ability to respond. Metrics include COVID-19 activity, healthcare system readiness, testing, case and contact investigations, and protecting high-risk populations.

The HCC will continue to track healthcare system readiness metrics using daily [WA Health survey data](#) that is currently displayed by county. Adequate bed capacity, staffing and supplies in the healthcare system to handle a surge in COVID cases will be measured by % of licensed beds occupied by patients (hospital census relative to licensed beds) and % of licensed beds occupied by suspected and confirmed COVID-19 patients. Availability of PPE and ventilators will also be considered. To view the more detailed eastern WA dashboard including catchment and facility level data (% occupied beds, COVID patient status, % vents in use, supply details, etc), please access the [tableau visualization published here](#).

On June 4th, the REDI HCC queried 271 healthcare organizations in and around eastern Washington through the [REDi HCC Resource Coordination Process](#) (RCP). The query was for medical supplies requested by a clinic that had submitted ICS 213 Resource Request forms through the RCP for over 10,000 medical items (Surgical Earloop, level III masks and N95 masks). Of the 37 responses to the query, one partner indicated an ability and willingness to share resources in partial fulfillment of the requested items. All organizations with urgent healthcare resource needs should also submit their [ICS 213 RR's](#) to their Local Health Jurisdiction (public health) in alignment with the [Washington State](#)

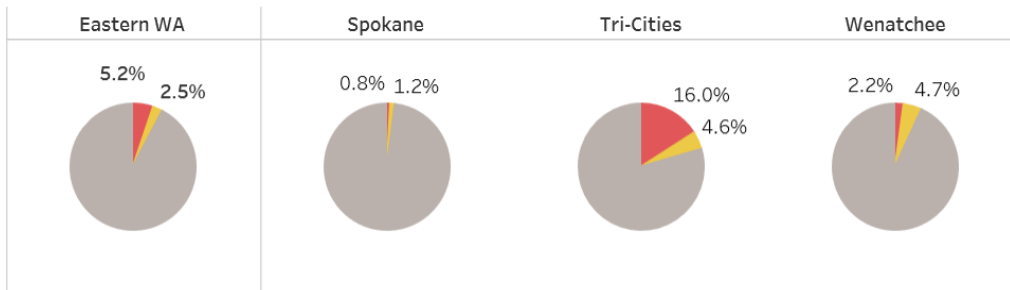

Resource Request Process. This Thursday, REDi will query for requested resources that healthcare partners have submitted since June 4th.

As of April 23, 2020, WA DOH is asking healthcare to use their PPE in the yellow zone (contingency) since there is not enough in the state for healthcare to use their PPE in the standard way. REDi HCC is continuing to share CDC [guidance on use of PPE](#), including [strategies](#) for [optimizing use of PPE](#), as well as WA DOH new resources on [conservation](#) as well as [prioritization of allocation](#).

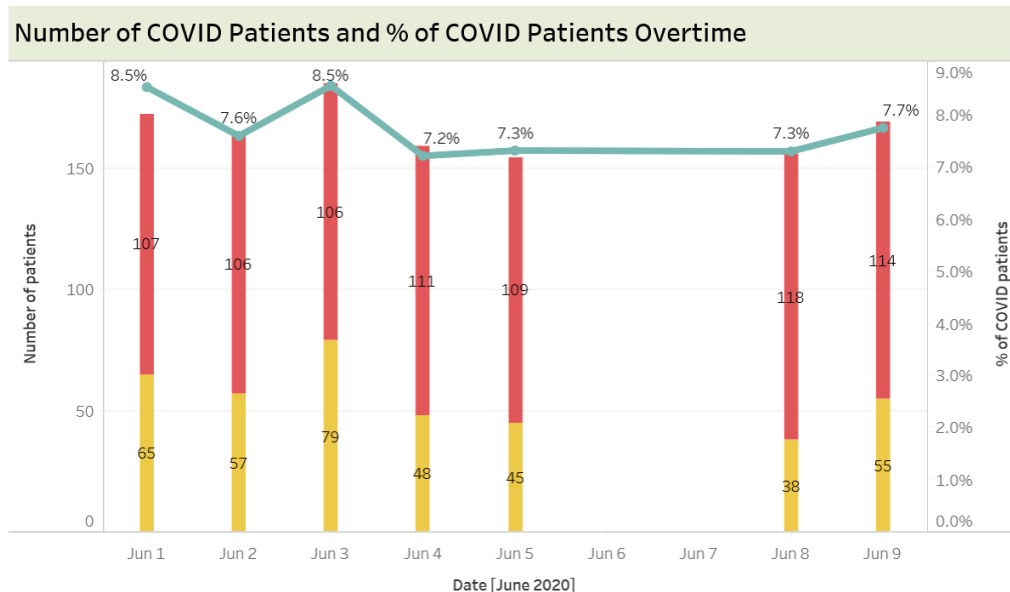

WA Health Findings

WA Health is a new data collection platform launched by the Washington State Department of Health. The platform is meant to replace the Washington State Hospital Resource Tracker as the main source of information regarding the current status of hospital equipment, supplies, and COVID-19 patient status as hospitals continue to be impacted by the COVID-19 pandemic. Hospitals are asked to report daily. The information reported here by REDi is that found in WA Health on the day of the report, as of 12:00 pm.

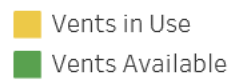

% and Number of COVID Patients by Catchment Area

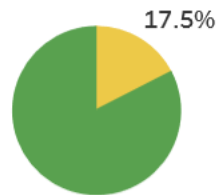

- COVID positive patients
- COVID PUI pending patients
- % of COVID patients

% of Vents in Use by Catchment Area

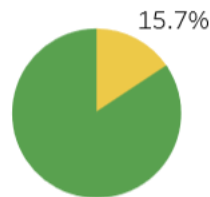

Eastern WA

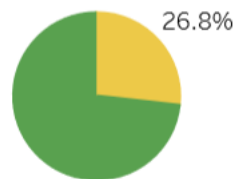

Among hospitals in Eastern Washington, there are 323 ventilators available. Approximately 17.5% (71/406) of ventilators are in use.

Spokane

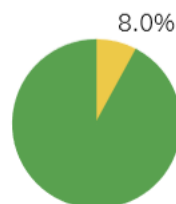

In the Spokane Catchment, there are 191 ventilators available. Approximately 15.7% (30/191) of ventilators are in use.

Tri-Cities

In the Tri-Cities Catchment, there are 127 ventilators available. Approximately 26.8% (34/127) of ventilators are in use.

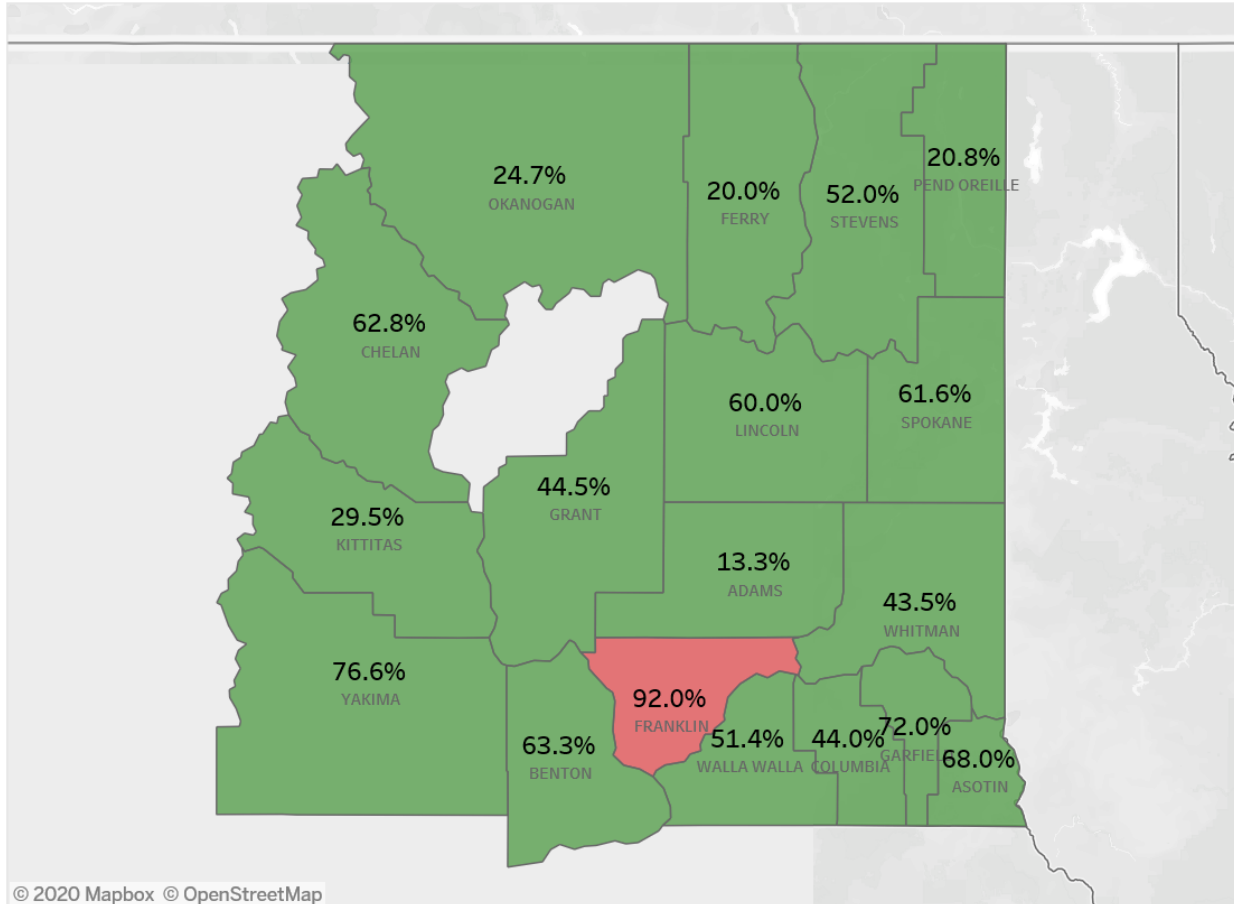

Wenatchee

In the Wenatchee Catchment, there are 88 ventilators available. Approximately 8.0% (7/88) of ventilators are in use.

- Of REDi’s Eastern Washington partner counties, Franklin County has the percentage of beds occupied, 92.0% and Adams County has the lowest percentage of beds occupied, 13.3%.

% of Licensed Beds Occupied by Patients by County

Comparing Crisis Standards of Care from REDi Situational Awareness Response Survey to Hospitals

Of the hospitals that answered the REDi Situational Awareness Survey on 06/09/2020, 32% indicated operating at the conventional level, 68% in contingency, and no hospitals reported being in crisis for resources. 96% indicated operating in conventional status for space, 4% (one hospital) indicated operating in contingency, and no hospitals indicated being in crisis. Regarding staff, 100% of hospitals reported operating in conventional status.

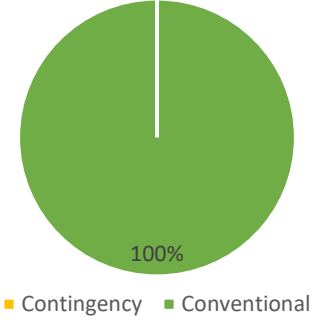

Current Hospital CSC Resource Status - Updated 06/09/20

Current Hospital CSC Space Status- Updated 06/09/20

Current Hospital CSC Staff Status - Updated 06/09/20

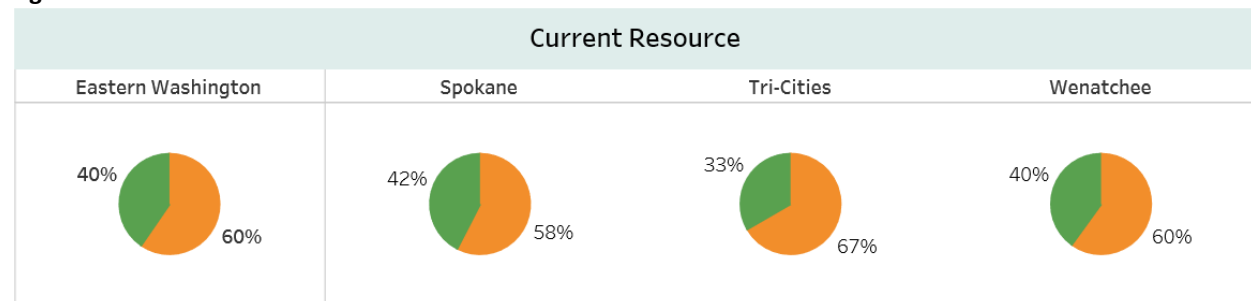

REdi Situational Awareness Response Survey Findings

This survey is administered by the REdi HCC to hospitals, hospice, long-term care, skilled nursing, ambulatory surgical centers, outpatient clinics, and urgent care facilities. This survey provides the most accurate status of our healthcare partner’s capacity, resources, and staffing. These percentages are based on the 52 agencies that responded today and only represent this sample. These percentages should not be compared to previous samples, as sample size and respondents vary.

Total Organizations	Spokane	Tri-Cities	Wenatchee
52	33	9	10

Figure 3.

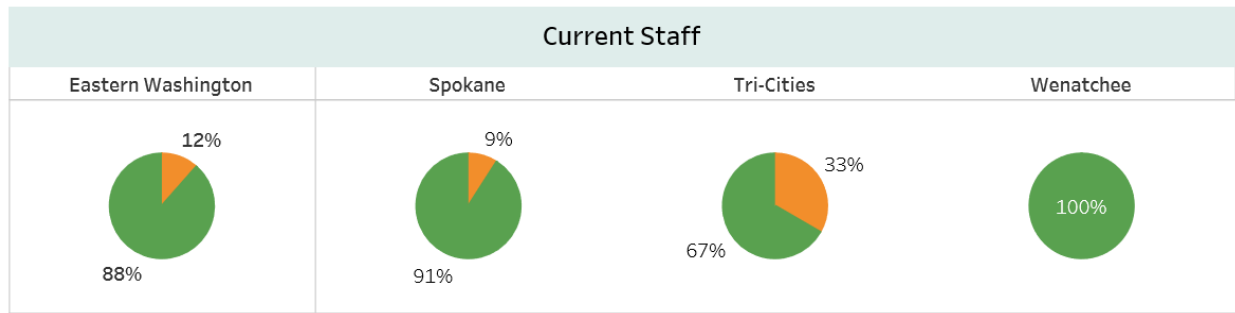

Status label

- Contingency
- Conventional

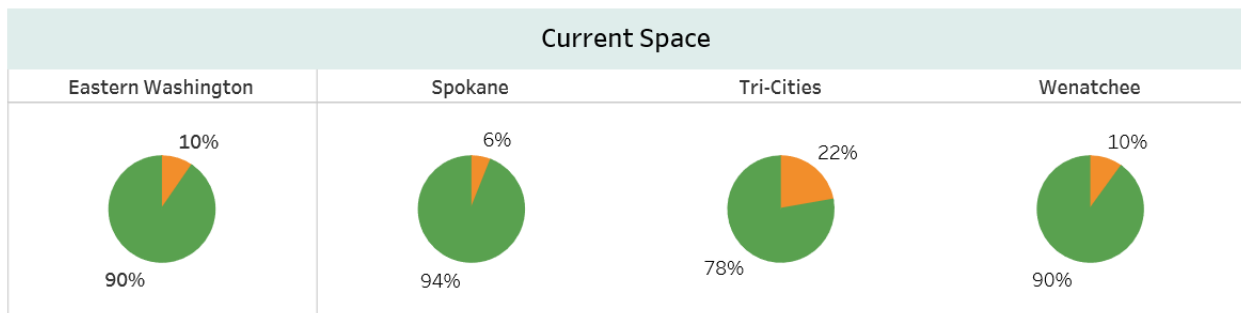

- 79% of all agencies have implemented their incident command, emergency operations, or medical surge plan.
- 100% of all agencies have implemented visitor restrictions and PPE conservation.
- 60% of all agencies are reporting contingency for current resources (figure 3 above) citing low supply of all PPE, mostly N95s. Agencies also reported conserving and reusing PPE as appropriate.

Figure 4.

- 12% of all agencies reported contingency status regarding current staffing (figure 4 above) due to staff reassignment and general staff shortages.

Figure 5.

- 10% of all agencies reported contingency status regarding current space (figure 5 above), citing spaces being utilized for isolation units.

Impacts by Catchment Area

Spokane

- 6% of agencies reported contingency status for current space.
- 9% of agencies are reporting contingency for current staff.
- 58% of agencies are reporting contingency status regarding current resources (mostly N95s) and conservation measures are in place for most agencies.

Wenatchee

- 10% of agencies (one agency) reported contingency status for current space.
- 100% of agencies reported *conventional* status for current staff.
- 60% of agencies are reporting a contingency for current resources, with agencies citing conserving PPE as appropriate.

Tri-Cities

- 22% of agencies reported contingency status for current space.
- 33% of agencies reported contingency for current staff.
- 67% of agencies are reporting a contingency for current resources, with agencies citing overall PPE shortages and continued conservation of PPE

To view these results within an interactive dashboard, [click here](#). The dashboard includes a map demonstrating the current situation at the facility level, as well as the percentage of facilities in contingency status for each county for resources, staff, and space.

REDi Situational Awareness Response Survey Agency Details

Agency Name: Empire Eye Surgery Center

Provider Type: Ambulatory Surgery Center

County: Spokane

Address: 1414 N houk rd, Spokane valley wa, 99216

Phone: '+15099223937

Update from: tyler brown, RN supervisor

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: Visitor restrictions, stringent masking, wearing mask all day or until soiled, PPE conservation, droplet precautions, reusing gowns.
 - Projected Space: Conventional
 - Projected Staffing: Conventional
 - Projected Supplies: Conventional
 - Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes

Agency Name: Northwest Orthopaedic Specialists

Provider Type: Ambulatory Surgery Center

County: Spokane

Address: 601 W. 5th Ave, Suite 500, Spokane WA, 99204

Phone: '+15093433858

Update from: thill@nwos-spokane.com

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: Waiting rooms not used except for minor patients.
 - Projected Space: Conventional

- Projected Staffing: Conventional
- Projected Supplies: Contingency
- Projected Supplies Explanation: Conserve. Continue looking to purchase.
- Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: No

Agency Name: Spokane Eye Surgery Center

Provider Type: Ambulatory Surgery Center

County: Spokane

Address: 427 S. Bernard St. Suite 200

Phone: '+15094568150

Update from: Tom Alderson Director of Nursing

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: visitor restrictions, limitations to patients in the waiting room, PPE conservation-re usage of masks following CDC guidelines,
 - Projected Space: Conventional
 - Projected Staffing: Conventional
 - Projected Supplies: Conventional
 - Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes

Agency Name: Andrews Care/Home is Where The Heart Is 2

Provider Type: Assisted Living

County: Spokane

Address: 14805 Mission Ave Spokane Valley Wa 99216

Phone: '+15093158508

Update from: Christine Kirby Manager

- Agency Status:

- implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: No visitors at this time. PPE Face mask, Hand sanitizing, Social distancing
- Projected Space: Conventional
- Projected Staffing: Conventional
- Projected Supplies: Conventional
- Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes

Agency Name: Prestige Senior Living at East Wenatchee

Provider Type: Assisted Living

County: Douglas

Address: 589 Highline Dr East Wenatchee, WA 98802

Phone: '+15098843938

Update from: Kirsten- Executive Director

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: visitor restrictions, stringent masking requirements, no communal dining or activities
 - Projected Space: Conventional
 - Projected Staffing: Conventional
 - Projected Supplies: Conventional
 - Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: No

Agency Name: Inland Northwest Behavioral Health

Provider Type: Behavioral Health

County: Spokane

Address: 104 W. 5th Ave, Spokane, WA 99204

Phone: '+15099921888

Update from: Troy Cherry, CFO

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: Increased infection control measures, universal masking, conservation of PPE, single point of entry, screened at the door (temperature, change in condition, location visits), social distancing and zoom for meetings, external providers to visit via phone, vendors minimized in the building, telehealth for IOP, telephonic courts
 - Projected Space: Conventional
 - Projected Staffing: Conventional
 - Projected Supplies: Conventional
 - Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes

Agency Name: NATIVE Project

Provider Type: Federally Qualified Health Center

County: Spokane

Address: 1803 W. Maxwell Ave., Spokane, WA 99201

Phone: '+15093255502

Update from: Maureen Rosette, COO

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: We only allow patients to enter the building; people must have their temperatures checked prior to entering the building, they must wear a mask the entire time they are in the building, we ask our patients to come alone if possible
 - Projected Space: Contingency
 - Projected Staffing: Conventional
 - Projected Supplies: Conventional

- Projected Space Explanation: We have had to move from pod living to trying to find space for all of our personnel. We can only get 8 people in the waiting room at a time. We have to have a work station built in our entryway.
- Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes

Agency Name: NEW Health Programs

Provider Type: Federally Qualified Health Center

County: Stevens

Address: 509 E Main Ave, Chewelah WA 99109

Phone: '+15094643627

Update from: Maureen Painter, Operations Manager South

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: visitor restrictions, stringent masking requirements or PPE conservation
 - Projected Space: Conventional
 - Projected Staffing: Conventional
 - Projected Supplies: Contingency
 - Projected Supplies Explanation: reprocessing of N95s (within reuse policy), or re-use of face masks and/or respirators
 - Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: No

Agency Name: Tri-Cities Community Health

Provider Type: Federally Qualified Health Center

County: Franklin

Address: 800 West Court Street, Pasco WA 99301

Phone: '+15095431968

Update from: Rick Ballard, Director of Facilities and Support

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: Temperature taking at each main entrance, screening CDC questions before allowing access, restricting access to patient only etc.
 - Projected Space: Conventional
 - Projected Staffing: Contingency
 - Projected Supplies: Contingency
 - Projected Staffing Explanation: Staff risk is high as they are the front line of screening and testing. Numbers of staff coming back looks promising. Remaining cautious...
 - Projected Supplies Explanation: Stable at this time; Masks, gowns and now gloves remain PPE items of concern.
 - Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes

Agency Name: Yakima Neighborhood Health Services

Provider Type: Federally Qualified Health Center

County: Yakima

Address: 12 South 8th St, Yakima WA 98901

Phone: '+15095745552

Update from: rhonda hauff, coo / deputy ceo

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: All visitors and patients required to mask if entering; masking patients in cars; installing negative air flow HVAC in dental;
 - Projected Space: Contingency
 - Projected Staffing: Contingency
 - Projected Supplies: Contingency
 - Projected Space Explanation: continued use of parking lots and cars for patient care
 - Projected Staffing Explanation: with increasing Covid in the county , we expect more staff to be isolated. Particularly impacting our ability to serve our homeless population

- Projected Supplies Explanation: Continued use of alternative masking, decontamination of N95s
- Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes

Agency Name: Yakima Valley Farm Workers Clinic

Provider Type: Federally Qualified Health Center

County: Yakima

Address: 603 W 4th Ave, Toppenish, WA 98948

Phone: '+15098655898

Update from: Reese Maloney, Safety Manager

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: Stringent masking requirements
 - Projected Space: Conventional
 - Projected Staffing: Contingency
 - Projected Supplies: Contingency
 - Projected Staffing Explanation: Staff will be reduced until all practices can be re-opened.
 - Projected Supplies Explanation: Vendors unable to fulfill all PPE orders
 - Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes

Agency Name: Chaplaincy Health Care

Provider Type: Hospice

County: Benton

Address: 1480 Fowler St. Richland, WA 99352

Phone: '+15097837416

Update from: Daniel Lipparelli, Director of Development

- Agency Status:

- implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: Visitor restrictions, masking requirements, PPE conservation, etc.
- Projected Space: Conventional
- Projected Staffing: Conventional
- Projected Supplies: Conventional
- Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes

Agency Name: Astria Sunnyside Hospital

Provider Type: Hospital

County: Yakima

Address: 1016 Tacoma Ave. Sunnyside, WA 98944

Phone: '+15098371388

Update from: Stephanie A. Macias, BSN, RN Director of Quality and Risk Management

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: Visitor Restrictions, Universal Masking, Temperature and Symptom Monitoring of All Staff
 - Projected Space: Conventional
 - Projected Staffing: Conventional
 - Projected Supplies: Conventional
 - Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes

Agency Name: Cascade Medical

Provider Type: Hospital

County: Chelan

Address: 817 Commercial St. Leavenworth, WA 98826

Phone: '+15095482515

Update from: Greg Horton Facilities Director/Emergency Preparedness Coordinator

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: Visitor restrictions. Single point of entry. All persons entering the facility are screened for symptoms and temp. Staff screening at start of shift.
 - Projected Space: Contingency
 - Projected Staffing: Conventional
 - Projected Supplies: Conventional
 - Projected Space Explanation: Same
 - Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes

Agency Name: Columbia County Health System

Provider Type: Hospital

County: Columbia

Address: 1012 S. Third Street, Dayton, WA, 99328

Phone: '+15093822531

Update from: Benjamin Schulte, internal compliance auditor

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: No visitors facility-wide
 - All staff and patients required to wear a mask upon entry into facility
 - Projected Space: Conventional
 - Projected Staffing: Conventional
 - Projected Supplies: Conventional
 - Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: No

Agency Name: Confluence Health

Provider Type: Hospital

County: Chelan

Address: 1201 S Miller St (CWH) & 820 N Chelan (WVH)

Phone: '+15094239960

Update from: Doug Jones

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: Visitor restrictions to include screening, PPE conservation, masking requirements for employees, patients, visitors & contractor/vendors
 - Projected Space: Conventional
 - Projected Staffing: Conventional
 - Projected Supplies: Contingency
 - Projected Supplies Explanation: Supplies of PPE are currently sufficient but continue to employ conservation strategies for surge capability
 - Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes

Agency Name: Coulee Medical Center

Provider Type: Hospital

County: Grant

Address: 411 Fortuyn Rd. Grand Coulee, WA 99133

Phone: '+15096336209

Update from: Marlene Elliott, CNO

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes

- Explanation: Visitor restrictions, stringent masking requirements and PPE conservation. Special droplet precautions instituted. Conservation strategies through reuse of N95, standard masks, and laundered gowns.
- Projected Space: Conventional
- Projected Staffing: Conventional
- Projected Supplies: Contingency
- Projected Supplies Explanation: Conservation strategies through reuse of N95, standard masks, and laundered gowns.
- Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes

Agency Name: East Adams Rural Healthcare

Provider Type: Hospital

County: Adams

Address: 903 S Adams St Ritzville WA 99169

Phone: '+15096595405

Update from: Jennifer Pepperd CNO

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: masking all patients and staff, visitor restrictions, conserving N95
 - Projected Space: Conventional
 - Projected Staffing: Conventional
 - Projected Supplies: Conventional
 - Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes

Agency Name: Ferry County Hospital

Provider Type: Hospital

County: Ferry

Address: 36 Klondike Rd republic, Wa 99166

Phone: '+15097758210

Update from: Cindy Chase, CNO

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: All of the above
 - Projected Space: Conventional
 - Projected Staffing: Conventional
 - Projected Supplies: Conventional
 - Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes

Agency Name: Garfield COunty Hospital District

Provider Type: Hospital

County: Garfield

Address: 66 N Sixth Street Pomeroy WA 99347

Phone: '+15098431591

Update from: Jayd Keener RN CNO, Co-CEO

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: No Visitors, universal masking, PPE conservation
 - Projected Space: Conventional
 - Projected Staffing: Conventional
 - Projected Supplies: Contingency
 - Projected Supplies Explanation: PPE conservation use
 - Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: No

Agency Name: Kittitas Valley Healthcare

Provider Type: Hospital

County: Kittitas

Address: 603 S. Chestnut St., Ellensburg, WA 98926

Phone: '+15099338838

Update from: Michele Wurl, Emerg Prep Cord., PIO

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: visitor restrictions, stringent masking requirements or PPE conservation
 - Projected Space: Conventional
 - Projected Staffing: Conventional
 - Projected Supplies: Contingency
 - Projected Supplies Explanation: previously answered
 - Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes

Agency Name: Lake Chelan Community Hospital

Provider Type: Hospital

County: Chelan

Address: 503 E Highland, Chelan, WA 98816

Phone: '+15096823300

Update from: Ray Eickmeyer, EMS director/Safety Officer

- Agency Status:
 - implemented any mitigation practices (e.g., visitor restrictions, stringent masking requirements or PPE conservation, droplet precautions, etc.)? Yes
 - Explanation: controlled access, IC running, visitor restrictions, PPE conservation, universal masking
 - Projected Space: Conventional
 - Projected Staffing: Conventional

- Projected Supplies: Contingency
- Projected Supplies Explanation: PPE conservation
- Med Surge:
 - Med Surge/Incident Command/Emergency Operations Plan implemented: Yes
- Other: We are able to take more patients

Agency Name: Lincoln Hospital District #3

Provider Type: Hospital

County: Lincoln

Address: 10 Nicholls St, Davenport, WA 99122

Phone: '+15097210417

Update from: Lance Strite, EP Coordinator

- Agency Status:

MISSION

To prepare for, respond to and recover from crisis using all available resources to provide patient care at the appropriate level in the most efficient manner for the best patient outcomes.

The REDi Healthcare Coalition works to strengthen the emergency preparedness and response planning for all aspects of healthcare through community coordination and collaboration. Healthcare Coalition participation is appropriate for all types of healthcare providers, mental health providers, EMS professionals, public health professionals, emergency managers and related services.
