

Behavioral Health Data System

Behavioral Health Supplemental Transaction Data Guide

Washington State
Health Care Authority

VERSION: 5.0

PUBLISH DATE: 9/30/2021

APPROVE DATE: 9/30/2021

GUIDE EFFECTIVE DATE: 9/30/2021

LAST UPDATED: 2/5/2021

SUMMARY OF CHANGES 4.2 – 5.0

- Added following error codes:
 - 30039-Error: Invalid Legal Reason for Detention/Commitment or too many codes. Transaction not posted.
 - 30208-Invalid Gender code or effective date is outside of active date range for Gender code. Transaction not posted.
 - 30235-Invalid Address Line 1
 - 30236-Invalid City Name.
 - 30375-Invalid Batch Date. Transaction not posted.
 - 30385-Invalid date for Date of Last Contact. Transaction not posted.
 - 30390-Invalid Funding code. Transaction not posted.
 - 30391-Invalid Income Source Id. Transaction not posted.
 - 30393-Invalid SMI-SED status code. Transaction not processed.
 - 30394- Invalid characters in the Profile Record Key.
 - 30509- Invalid MCR Agency NPI
 - 30510- Invalid MCR Service Provider NPI
- Updated all instances of Secure Detox to Secure Withdrawal Management and Stabilization.
- Updated the acronym DMHP to DCR (Designated Crisis Responder).
- Updated Block Grant Funded Services language.
- Updated all instances of Military Service to Military Status.
- Updated ERD.
- DCR investigation: Require Inpatient NPI when Investigation Outcome is 1,4 or 7.
- Added Investigation Outcome page under DCR Investigation section.
- Updated DCR Investigation Outcome Historic value table with code value 21.
- ITA Hearing Outcome: Table has been modified to be in compliance with the statute (Senate Bill 5071).
- Updated ITA Hearing Outcome table code 12 definition, added code value 29, inactivated code value 11.
- Added a Detention facility NPI Field page under the ITA Hearing section.
- Require Date of First Offered Appointment in Service Episode Transaction.
- Require all elements in the Funding transaction.
- Removed/Decommissioned Authorization transaction- Effective May 27, 2021.
- Updated Service Referral Source “Allow Null” column to “N”.
- Updated Substance Use (2) and (3) data elements “Allow Null” column to “N”.
- Added code value 8: Unable to locate caller to MCR Outcome table.
- Added code value 12: Designated Crisis Responder to MCR Referral Source table.
- Added code value 9 & 10 to Service Episode End Reason.
- Added 3 new pages under MCR section for County, MCR Agency NPI and MCR Servicing Provider NPI.
- Updated MCR table to include County, MCR Agency NPI and MCR Servicing NPI.
- Added Source Tracking ID to ASAM Placement and Client Profile Transactions.

Data Guide Overview:

Overview

The Washington State health care purchasing mechanism, driven by state law, and implemented under federal rules, required the integration of both mental health (MH) and substance use disorder (SUD) (also known as chemical dependency) into a behavioral healthcare model. This behavioral healthcare model was a first step toward a larger integration of behavioral health services with physical healthcare by January 1, 2020, known as Integrated Managed Care (IMC). These innovative changes have also given rise to a change from a fee-for-service to a managed care model for SUD treatment services.

The Behavioral Health Data Consolidation (BHDC) project developed and implemented a combined behavioral healthcare model, ultimately incorporating integrated behavioral health data collection, storage, and supporting reporting functions and substance abuse data collection into a database called the Behavioral Health Data System (BHDS).

The BHDS includes data from two legacy systems:

- The Treatment and Assessment Reports Generation Tool (TARGET), covering SUD clients and services.
- The Mental Health Consumer Information System (MH-CIS), covering community mental health clients and services.

This data guide contains reporting requirements for the Managed Care Organizations (MCOs), and Behavioral Health Administrative Services Organizations (BH-ASOs) to meet the Health Care Authority's Division of Behavioral Health and Recovery's (DBHR) state and federal reporting requirements related to funding.

This data guide can be found at <https://www.hca.wa.gov/billers-providers-partners/behavioral-health-recovery/contractor-and-provider-resources> along with prior versions of the data guide and additional resources needed to submit the BHDS data.

This data guide enumerates and explains each of the fields in each of the transactions that are submitted directly to HCA. Contractors are also required to submit both Service Encounters through the ProviderOne Medicaid billing system and the behavioral health supplemental transaction. BHDS will join its data with Service Encounter data and other data sources for analysis and reporting.

This data guide does not address ProviderOne encounter data submission; however, it can be found at <https://www.hca.wa.gov/billers-providers-partners/behavioral-health-recovery/service-encounter-reporting-instructions-seri> in the Service Encounter Reporting Instructions (SERI) guide.

Terminology Guide

Terminology used in this data dictionary is within the context of this data system and may differ between the clinical mental health (MH) and SUD definitions. Definitions are defined in the glossary in the context of this guide.

The database that houses submission of data will be referred to as the BHDS, which stands for the Behavioral Health Data System (BHDS). Data submissions to BHDS are referred to as Behavioral Health Supplemental Transactions.

The Health Care Authority (HCA) division receiving information will be referred to as DBHR which stands for Division of Behavioral Health and Recovery.

The organizations submitting the data to DBHR will be referred to collectively as contractor, meaning the Behavioral Health Administrative Services Organizations (BH-ASOs), and Managed Care Organizations (MCOs) operating in the IMC regions.

BHDS Data Guide

[Return to Table of Contents](#)

The providers or entities providing services directly to clients in the community will be referred to as Provider Agencies or agency. These agencies collect and pass data on to contractor for ultimate submission into the BHDS. The people in the community needing and receiving behavioral health services to include SUD and mental health will be referred to as clients.

While there may be differences between clinical terms in Mental Health field and SUD to describe the same item, this guide will use single terms agreed upon by the organizations. An example of this is in the SUD field; clinical evaluation of the patient for the purposes of forming a diagnosis and plan of treatment is called an assessment, but in the Mental Health field it could be called an intake. This data guide will use the term assessment for this activity. All agreed upon terminology is defined in the glossary.

Document Use Guide

To find a data element in this data guide, you can Ctrl + Click on the element listed under its corresponding transaction in the Table of Contents. You can return to the table of contents by Ctrl + Click on the link in each header.

Navigation

To easily navigate through a PDF document simply open the document in its default PDF reader, press CTRL +F and a search box will appear, enter your search term and the first match will be highlighted.

Effective Dates

There are various effective dates listed in this guide. Each effective date is different and applies to different parts of the data. The effective date listed on the cover reflects the date in which any added values or changes to the structure are available and will be accepted in BHDS production. Since this guide is an evolving document and will change as legal, legislative, and policy changes occur, code values may become inactive. If there are changes to a specific element, there may be an active and inactive date for a particular element specified in the history of changes table located under the valid code value table in each transaction section.

Nationally Accepted Health Information Technology (HIT) Code Crosswalk:

The BHDS data guide contains tables that crosswalks available nationally accepted Health IT vocabulary codes to data elements in the BHDS. The BHDS will NOT accept data elements submitted using these national vocabulary codes. Rather, the Health Care Authority (HCA)/DBHR are making available these crosswalks to support BH providers' use of interoperable health information technology systems and tools. We anticipate that BH providers will increasingly use interoperable HIT systems, including certified electronic health records (EHRs). Certified EHRs required use of certain HIT standards to support interoperability. The goal of HCA/DBHR in making available these crosswalks is to support BH providers who use certified EHRs to re-use data elements captured in their EHRs and more efficiently create required reports.

The crosswalks link certain BHDS data elements to nationally accepted HIT vocabulary codes required by the Federal Government for use in certified EHRs¹. The HIT vocabulary code sets referenced in the BHDS Guide are listed and described in Appendix H.

Each data element contains the following information:

Content	Information	Example								
Data Element Name	Name of data element	ASAM Level Indicated								
Effective Date	Date data element became effective for use	4/1/2017								
Category/ Section	This is the transaction that the element is submitted in.									
Return to Table of Contents	Link to Table of Contents									
Definition	Defines what data element pertains to									
Code Values	Defines the list of allowed values, with definition if necessary	Code Values: <table border="1"> <thead> <tr> <th>Code</th> <th>Value</th> <th>Definition</th> </tr> </thead> <tbody> <tr> <td></td> <td></td> <td></td> </tr> </tbody> </table>	Code	Value	Definition					
Code	Value	Definition								
Historical Code Values	Defines the list of previously allowed values that are now disabled for use	Historical Code Values: <table border="1"> <thead> <tr> <th>Code</th> <th>Value</th> <th>Effective Start Date</th> <th>Effective End Date</th> </tr> </thead> <tbody> <tr> <td></td> <td></td> <td></td> <td></td> </tr> </tbody> </table>	Code	Value	Effective Start Date	Effective End Date				
Code	Value	Effective Start Date	Effective End Date							
Nationally Accepted HIT Code Crosswalk:	Defines the crosswalk to nationally accepted standards as a reference for HIT interoperability									
Data Use	Defines how data is used	This data is collected for the federal Substance Abuse and Mental Health Services Administration (SAMHSA) Treatment Episode Data Set (TEDS) block grant or used for program management.								
Field Format	Defines the length, character type, and whether it is an identity value, required, allows nulls, or any other special conditions									
Validation	Lists validations that would cause errors in the data									
History	Lists the date and any changes to the data, including any clarifications	mm/dd/yyyy: Decision to change the data element name from xxxx to yyyy								
Notes	Any notes not covered in other areas									

General Considerations of Guide

Reporting Organization

There is a requirement that the servicing organization reports. The servicing organization provides the service, and the responsible organization is the one that has the client. The requirement is that each contractor works with their provider agencies and other organizations to ensure all service encounters, including residential and evaluation and treatment services, are reported through ProviderOne and all related service information is reported in accordance with this data guide and applicable contract (e.g., service episode transactions, client demographics, etc.).

Service Episodes

Core to the business process is the concept of service episode. A service episode may be thought of as a container of services, which can be MH programs or SUD programs, a group of SUD programs that are related, or a combination of both MH and SUD services. The key boundary is that the services can only be provided by a single agency/provider. On the other hand, SUD programs occur within a single modality of service. For federal and block grant reporting requirements, the Program ID element includes SUD modalities. This forces a new program to start and end when any of the SUD modalities of service (as listed in the Program ID element) changes, regardless of whether or not provider agency or location changed. A service episode is required for every MH outpatient or when a client enrolls in any program listed in the program ID for a single agency/provider. A service episode can be opened for services outside of those requirements.

Data File Format

The file specifications are left justified, tab-delimited text files with Windows style row delimiters (Carriage Return/Line Feed CR. LF). The order of elements reported will match the order of elements as prescribed for each transaction in the Transactions and Definitions section of this document. If there are multiple changes to the same record in a file, deletions will be processed first, then they will be processed in the order they appear in the file. Transactions will not process if primary keys are invalid, and/or required elements are left blank. Transactions will not process without the client demographic transaction successfully processing first. Each transaction will be submitted via SFTP using an account given by HCA.

Key Fields

Key fields are unique identifiers for an instance of the transaction. These fields are assigned by the submitter system. For example, the PROGRAM ID KEY field identifies each time a client is enrolled in a program. A client that is enrolled in the same program two different times would have two different records with two different keys. The key field is used to uniquely identify different instances while avoiding having additional fields such as start date be contained in the primary key. This same concept applies to all fields with key in the field name.

SFTP Accounts

Each reporting organization will be given two accounts, one is test (hca-organizationname-test) and the other is production (hca-organizationname). There must be one or two specific individuals accountable for the security of these accounts. These individuals will be the ones receiving the password reset emails, and able to reset passwords for these accounts. These accounts are used to log into the two corresponding SFTP sites (test and prod). Passwords may be updated at the web site (sft.wa.gov or sft-test.wa.gov) or with any sftp tool to which one is accustomed. Account password resets are to be sent as a service request to HCA service desk by authorized individuals.

BHDS Data Guide

[Return to Table of Contents](#)

Blanks/Unknowns/Not Collected

Please follow any guidance provided in Transactions or Elements regarding the use of “unknown” or leaving fields blank. Even though an element may specify that it is a required element in the summary of transactions it may be listed as optional for a particular treatment. If an element has a selection of “not collected” or “unknown” these must be used in the lieu of leaving a field blank.

Add/Change Status

For any transaction where an Add status or Change status is submitted, the system will check to see if the record exists and add/or change accordingly even if the status is submitted incorrectly. Example: If a transaction is submitted as “Change”, and there is no record to update the change status will be treated as an “Add.” If the transaction is submitted as “Add” and a record already exists, the transaction will be treated as a change. Deletes will always delete the record unless the record does not exist, in which case an error message will be returned.

Special Characters

Please follow any guidance provided in Transactions or Elements regarding the use of special characters. Except when specified, avoid using special characters.

Appendices

The appendices in this section will contain other information to help understand the data including glossary, error codes, and relationships. A description of each appendix is available on the appendix page.

Transaction Definitions

Summary of Transactions

Definition:

This chapter summarizes all the transactions the contractor can send to HCA based on the scope of their service delivery. R = Required, C = Conditionally Required, Blank = Not Required

Table Heading Definitions:

Transaction: Name of Behavioral Health Supplemental Transaction

Data Elements: Data elements contained in each transaction **[only bolded elements are required with a required transaction; other elements can be provided if obtained]** - Note: Some elements must be submitted even if they are not required, use option for not collected for these elements, if not collected is not available use the “unknown” selection.

- Assessment: Pre-Intake for MH or Assessment for SUD
- MH: Mental Health
- SUD: Substance Use Disorder (includes outpatient, intensive outpatient, and all types of residential)
- SUD-WMS: SUD Withdrawal Management Services (as defined by Washington Administrative Code 246-341-1100)
- Program End Reason or Service Episode End Reason

BHDS Data Guide

[Return to Table of Contents](#)

Header - 000.01

Section: Transactions & Definitions

[Link to details of transaction](#)

Definition:

This transaction is a header and is the first record that goes into the BH supplemental transaction (non 837X12N EDI) batch file. The Header tells what number the batch is, the originator, and the date sent.

Transaction ID	000.01	Type	Length	Allow Null
Primary Key	SUBMITTER ID	Varchar	20	N
	BATCH NUMBER	Varchar	5	N
Body	BATCH DATE	Date	CCYYMMDD	N

Rules:

- This transaction will not process if the Batch Date does not have a valid date format or the submitting contractors' ProviderOne ID does not represent a contractor with authority to submit directly to HCA. A blank batch number will generate an error.
- Batch number in header must match batch number in the file name.
- Must submit sequential batch numbers.
- Batch numbers are generated by the contractor.

Validation:

- Sequential batch number will be validated for integrity and blanks.

Notes:

This transaction is required as the first record of each supplemental transaction (non 837X12N EDI) batch file and all batches must be submitted for processing in Batch Number order. There is no action code in this transaction.

Example:

000.01<tab>105021301<tab>00001<tab>20160930

Cascade Merge – 130.04

Section: Transactions & Definitions

[Link to details of transaction](#)

Definition:

This transaction will void a Client ID and bar its use in the future. A Client ID is voided when the contractor has established two different identifiers for a single person. The provider agency must identify the Client ID to be voided and identify the Client ID to reference in its place.

Transaction ID	130.04	Type	Length	Allow Null
Primary Key	SUBMITTER ID	Varchar	20	N
	CLIENT ID TO VOID	Varchar	20	N
Body	CLIENT ID TO KEEP	Varchar	20	N

Rules:

- This transaction will not process if the Client ID TO VOID or CLIENT ID TO KEEP is not valid.
- It will also not process if the Client IDs have been previously voided, or the Client IDs are equal.
- Reports for the voided ID will be displayed under the new ID (the CLIENT ID TO KEEP).

Notes:

- There is no action code in this transaction.
- This transaction will void the CLIENT ID TO VOID; the merge will update records to the new CLIENT ID TO KEEP.

Example:

130.04<tab> 105021301<tab>Client ID 20chars<tab>Client ID 20chars

Cascade Delete – 131.04

Section: Functional Transactions
[Link to details of transaction](#)

Definition:

This transaction allows for the mass deletion of non-encounter records for a given client. This is referred to as a "Full Cascade Delete." Deletes will always delete the record unless the record does not exist, in which case an error message will be returned.

Full Cascade Delete:

This type of delete will remove all non-encounter information about a client. Once processed, the Client ID will be voided and not available for future processing. The contractors' administrator may delegate his/her authority to authorize Full Cascade Deletes to someone who maintains their information system.

Transaction ID	131.04	Type	Length	Allow Null
Primary Key	SUBMITTER ID	Varchar	20	N
	CLIENT ID (The ID to be deleted)	Varchar	20	N

Rules:

- The transaction will not process if the Client ID is not valid, or the Client ID has already been voided.

Validation:

- Validate that the contractor submitting a Cascade Delete transaction is applied for clients in all BHDS tables.
- Will return an error if delete transaction record does not exist.
- Verify client ID to be deleted was not already voided.

Notes:

- There is no action code in this transaction.
- There is no body in this transaction.
- Full Cascade Delete no longer requires prior DBHR approval.

Example:

131.04<tab>105021301<tab> Client ID 20chars

Client Demographics – 020.08

Section: Transactions & Definitions

[Link to details of transaction](#)

Definition:

This is the transaction for full demographic data using the Client Unique ID (CUID). The CUID is used by DBHR to link that person's records across various systems. The elements that constitute a CUID must be successfully processed before any other transaction will be accepted. If "crisis" or pre-intake prevents collection of CUID elements, then the contractor must collect at earliest possible point before submission.

Transaction ID:	020.08	Type	Length	Allow Null
ACTION CODE:	"A" Add "C" Change	Varchar	1	N
Primary Key:	SUBMITTER ID	Varchar	20	N
	CLIENT ID	Varchar	20	N
	EFFECTIVE DATE	Date	CCYYMMDD	N
Body	FIRST NAME	Varchar	35	N
	MIDDLE NAME	Varchar	25	Y
	LAST NAME	Varchar	60	N
	ALTERNATE LAST NAME	Varchar	60	Y
	SOCIAL SECURITY NUMBER	Varchar	9	Y
	BIRTHDATE	Date	CCYYMMDD	N
	GENDER	Varchar	2	N
	HISPANIC ORIGIN	Varchar	3	N
	PRIMARY LANGUAGE	Varchar	3	Y
	RACE(S)	Varchar	18	N
	SEXUAL ORIENTATION	Varchar	2	N
	SOURCE TRACKING ID	Varchar	40	Y

Rules:

- The Client demographic transaction is required before the submission of any other transaction to BHDS and updated upon change.
- A change is defined as an update to a preexisting record in the database. An add is inserting a record that did not previously exist. Note that the Effective Date is in the Primary Key. To update an existing record, the Effective Date must match. If not, a new demographic record will be added and the one with the most current Effective Date will be considered current.
- Since this transaction does not identify the provider agency and is a single transaction at the contractor level, the External Quality Review Organization (EQRO) will need to understand that not all Provider Agencies will have all the data elements in this transaction since for some of the agencies they are not required. For example, a client seen for a DCR Investigation or Withdrawal Management will not have the non-required data elements.
- It is understood that the values in data elements Gender, Hispanic Origin, Primary Language, Race, and Sexual Orientation may change based on what the client reports to each provider agency and the changes will be passed to the BHDS without the provider agency identified.

Client Address – 022.03

Section: Transactions & Definitions
[Link to details of transaction](#)

Definition:

Client's physical residential address (i.e., where Client lives).

Transaction ID:	022.03	Type	Length	Allow Null
ACTION CODE:	"A" Add "C" Change "D" Delete	Varchar	1	N
Primary Key:	SUBMITTER ID	Varchar	20	N
	CLIENT ID	Varchar	20	N
	EFFECTIVE DATE	Date	CCYYMMDD	N
Body	ADDRESS LINE 1	Varchar	120	N
	ADDRESS LINE 2	Varchar	120	Y
	CITY	Varchar	50	Y
	COUNTY	Varchar	5	Y
	STATE	Varchar	2	N
	ZIP CODE	Varchar	10	Y
	FACILITY FLAG	Varchar	1	N
	SOURCE TRACKING ID	Varchar	40	Y

Rules:

- Collect Client Address at request for service or at assessment and on change.
- This transaction will not process if the Demographic Transaction has not been processed.
- Client's address of residency is most preferred.
- If address of residency is not available, then submit the client's mailing address; if mailing is not available, report address elements available; at a minimum report county, city, and state or zip.
- If client is homeless or unable to provide an address of residency or mailing address, report what is available, including city, county, and state or zip code. In the case of residence in a tent in the woods, report closest city, county, and state or zip code (or the closest by proximity), but do not report provider agency as the closest proximity.
- Follow detail instructions for Address Line 1 outlined in Address Line 1 data element.
- If the client is staying at a facility, submit the facility address with the facility flag as Y.
- This transaction is optional for SUD clients in withdrawal management services but should be reported if possible.
- If the client's address of residency is not in U.S., then all body elements are optional (can be left blank), except "STATE" must be reported as "XX" for Unknown or "OT" for Other.

Notes:

Example:

022.03<tab>A<tab>105021301<tab>Client ID 20chars<tab>20160401<tab>Addr Line 1 120chars<tab>Addr Line 2 120chars<tab>Lacey<tab>53067<tab>WA<tab>Zip 10char<tab>SourceTrackingID 40chars

Client Profile – 035.10

Section: Transactions & Definitions

[Link to details of transaction](#)

Definition:

Additional client characteristics required for all clients.

Transaction ID:	035.10	Type	Length	Allow Null

	NEEDLE USE EVER (required for SUBSTANCE USE DISORDER, optional MENTAL HEALTH)	Varchar	2	N
	MILITARY STATUS	Varchar	2	N
	SMI/SED STATUS	Varchar	2	N
	SOURCE TRACKING ID	Varchar	40	Y

BHDS Data Guide

[Return to Table of Contents](#)

Rules:

This is collected at admission and discharge (as defined in the Service Episode and Program transaction). Continue to report at least every 90 days or upon change, whichever comes first. If the information has not changed, resubmit existing data at the 90-day period.

Notes:

Example:

035.10<tab>A<tab>105021301<tab>Client ID 20chars <tab>1234567890 <tab>ProfileRecordKey 40chars
<tab>20160401<tab>97<tab>97<tab>97<tab>Y<tab>Y<tab>2<tab>97<tab>Y<tab>97<tab>Y<tab>4<tab>97
<tab>

Definition:

This transaction is to be used to identify a time period in which a client is served by a provider agency, based on their contractors’ authorization to pay for those services. Substance Abuse and Mental Health Services Administration (SAMHSA) requires states to report “client level” data annually, so that outcomes can be compared from one year to the next. This requires each state to be able to identify:

New clients admitted and discharged during the reporting period

- Change in outcome will be measured from admission to the time of discharge

Continuing clients at the beginning and discharged during the reporting period

- Change in outcome will be measured from the beginning of reporting period to the time of discharge

New clients who remain on the caseload at the end of the reporting period

- Change in outcome will be measured from admission to the end of the reporting period

Continuing clients at the beginning and end of the reporting period

- Change in outcome will be measured from the beginning to the end of reporting period

This transaction, along with the program ID transaction, is the way for contractors to report outpatient treatment episodes of care in a way that allows DBHR to meet their SAMHSA reporting requirements.

Transaction ID:	170.06	Type	Length	Allow Null
ACTION CODE:	“A” Add “C” Change “D” Delete	Varchar	1	N
Primary Key:	SUBMITTER ID	Varchar	20	N
	CLIENT ID	Varchar	20	N
	PROVIDER NPI	Varchar	10	N
	EPISODE RECORD KEY	Varchar	40	N
Body	SERVICE EPISODE START DATE	Date	CCYYMMDD	N
	SERVICE EPISODE END DATE	Date	CCYYMMDD	Y
	SERVICE EPISODE END REASON	Varchar	2	Y
	SERVICE REFERRAL SOURCE	Varchar	2	N
	DATE OF LAST CLIENT CONTACT	Date	CCYYMMDD	Y
	DATE OF FIRST APPOINTMENT OFFERED	Date	CCYYMMDD	N
	MEDICATION-ASSISTED OPIOID THERAPY	Varchar	2	N

	SOURCE TRACKING ID	Varchar	40	Y
--	--------------------	---------	----	---

Rules:

- Service episode is required for mental health outpatient and whenever a client enrolls in a program listed in the program ID. Service episode is optional if it is not mental health outpatient and not in the ProgramID list. Examples of these services include crisis, pre-assessment, or ITA services.
- Each contractor must work with their provider agency to ensure all service encounters (based on services provided to the individual client) are reported through Provider One and all related service information is reported as per this BHDS data guide (e.g., service episode transactions, client demographics, etc.).
- For Mental Health, this transaction is used to report on going outpatient episodes.

Notes:

Example:

170.06<tab>A<tab>105021301<tab>Client ID 20chars<tab>1234567890<tab>Episode Record Key
40chars<tab>20160501<tab>20160601<tab>02<tab>04<tab>SourceTrackingID 40chars

Definition:

A client identified by a contractor may be enrolled in a special program as identified in the Program ID element. This transaction will not prevent a client from being in 2 or more different programs at a particular agency or enrolling in programs simultaneously. Traditional mental health outpatient treatment under the managed care system is not a program that should be reported with this transaction.

Transaction ID:	060.06	Type	Length	Allow Null
ACTION CODE:	"A" Add "C" Change "D" Delete	Varchar	1	N
Primary Key:	SUBMITTER ID	Varchar	20	N
	CLIENT ID	Varchar	20	N
	PROVIDER NPI	Varchar	10	N
	PROGRAM ID KEY	Varchar	40	N
Body	PROGRAM ID	Varchar	3	N
	PROGRAM START DATE	Date	CCYYMMDD	N
	PROGRAM END DATE	Date	CCYYMMDD	Y
	ENTRY REFERRAL SOURCE	Varchar	2	Y
	PROGRAM END REASON	Varchar	2	Y
	SOURCE TRACKING ID	Varchar	40	Y

Rules:

- This transaction is required upon entry and exit of the programs.
- If there are services that are not programs listed in the program ID they should not be tracked in this transaction.
- Concurrent Transactions: Substance Use Clients: Must submit Client Profile, ASAM Placement, and Substance Use transactions with this transaction.

Notes:

Example:

060.06<tab> A<tab>105021301<tab>Client ID 20chars<tab> 1234567890<tab>ProgramIDKey 40
 Char<tab>20160401<tab>20160501<tab>97<tab>97<tab>SourceTrackingID 40chars

Co-occurring Disorder – 121.05

Section: Transactions & Definitions
[Link to details of transaction](#)

Definition:

Co-occurring disorder and screening assessment.

Transaction ID:	121.05	Type	Length	Allow Null
ACTION CODE:	"A" Add "C" Change "D" Delete	Varchar	1	N
Primary Key:	SUBMITTER ID	Varchar	20	N
	CLIENT ID	Varchar	20	N
	PROVIDER NPI	Varchar	10	N
	GAIN-SS DATE	Date	CCYYMMDD	N
	SCREEN ASSESSMENT INDICATOR	Varchar	1	N
Body	CO-OCCURRING DISORDER SCREENING(IDS) (Required, based on value in Screening Assessment Indicator)	Varchar	2	Y
	CO-OCCURRING DISORDER SCREENING (EDS) (Required, based on value in Screening Assessment Indicator)	Varchar	2	Y
	CO-OCCURRING DISORDER SCREENING (SDS) (Required, based on value in Screening Assessment Indicator)	Varchar	2	Y
	CO-OCCURRING DISORDER ASSESSMENT (Required if the client screens high (2 or higher) on <u>either</u> the IDS or EDS, <u>and</u> on SDS)	Varchar	2	Y
	SOURCE TRACKING ID	Varchar	40	Y

Rules:

- Required at assessment for all clients, thirteen (13) and above through the use of DBHR provided Global Appraisal of Individual Needs – Short Screener (GAIN-SS).
- This transaction will not process if the values for the CO-OCCURRING DISORDER SCREENING (IDS), CO-OCCURRING DISORDER SCREENING (EDS), CO-OCCURRING DISORDER SCREENING (SDS) or CO-OCCURRING DISORDER ASSESSMENT are missing or invalid.
- There is not an edit requiring the initial EDI service encounter to be processed prior to this transaction.

ASAM Placement – 030.03

Section: Transactions & Definitions

[Link to details of transaction](#)

Definition:

The American Society of Addiction Medicine (ASAM) criteria is the most widely used and comprehensive set of guidelines for placement, continued stay, and transfer/discharge of patients with SUD and co-occurring conditions. ASAM Level Indicated means the ASAM Level as scored on the ASAM placement criteria.

Transaction ID:	030.03	Type	Length	Allow Null
ACTION CODE:	"A" Add "C" Change "D" Delete	Varchar	1	N
Primary Key:	SUBMITTER ID	Varchar	20	N
	CLIENT ID	Varchar	20	N
	PROVIDER NPI	Varchar	10	N
	ASAM RECORD KEY	Varchar	40	N
Body	ASAM ASSESSMENT DATE	Date	CCYYMMDD	N
	ASAM LEVEL INDICATED	Varchar	6	N
	SOURCE TRACKING ID	Varchar	40	Y

Rules:

- Required for all SUD clients, including SUD clients receiving Withdrawal Management Services where an assessment was provided.
- Not required for SUD services provided prior to an assessment.
- Required at assessment, admission, and anytime thereafter that it is collected.
- Must collect and report ASAM when there is a level of care change.

Notes:

- Refer to Service Encounter Reporting Instructions (SERI) for services that may be provided prior to an assessment.

Example:

030.03<tab>A<tab>105021301<tab> Client ID 20chars<tab>1234567890<tab>ASAMRecordKey 40chars<tab>20160401<tab>OST<tab>

Definition:

A Designated Crisis Responder (DCR) is the only person who can perform an Involuntary Treatment Act (ITA) investigation that results in a detention and revocation. A crisis worker who is not a DCR can initiate this investigation but in order for a detention to take place, it is mandated (RCW 71.05 for adults, RCW 71.34 for children 13 and over) that the DCR investigate and make a determination. Therefore, all investigations reported are derived from the investigation resulting from the findings of a DCR. Do not report investigative findings of the crisis worker unless the crisis worker is also a DCR.

The intent of this transaction is to record DCR investigations only. Activities performed by a DCR including crisis intervention, case management, or other activities, while important are not collected by this transaction. Each contractor determines which specific actions come under an investigation. The DBHR recommended criteria for when a DCR activity becomes an 'investigation' is when the decision to investigate has been made and the DCR reads the person his/her rights. The trigger is reading the person his/her rights.

This transaction identifies all investigations by the DCR, even if the DCR is also classified as a crisis worker. An investigation can result in a detention, which is 120 hours; a return to inpatient facility with a revocation of a court ordered less restrictive alternative (LRA) petition filed; a filing of a petition recommending an LRA extension; a referral for voluntary in-patient or outpatient mental health services, a referral to other community resources; or no action based on mental health needs.

Transaction ID:	160.05	Type	Length	Allow Null
ACTION CODE:	"A" Add "C" Change "D" Delete	Varchar	1	N
Primary Key:	SUBMITTER ID	Varchar	20	N
	CLIENT ID	Varchar	20	N

	LEGAL REASON FOR DETENTION/COMMITMENT (*Code value from table below)	Varchar	4	N
	RETURN TO INPATIENT/REVOCAATION AUTHORITY (*Code value from table on DCR Investigation Outcome)	Varchar	2	Y
	DCR AGENCY NPI	Varchar	20	N
	INVESTIGATION REFERRAL SOURCE	Varchar	2	N
	INVESTIGATION END DATE	Date	CCYYMMDD	N
	SOURCE TRACKING ID	Varchar	40	Y

BHDS Data Guide

[Return to Table of Contents](#)

Rules:

- Only collected for persons being investigated under the Involuntary Treatment Act
- This transaction is to be used to provide more information about a crisis service that resulted in an investigation. An associated crisis intervention encounter, per the “Involuntary Treatment Investigation” service modality, is expected to be received in an “837P transaction.”
- There are some code value dependencies based on the Investigation Outcome (required). Please see the DCR Investigation outcome table to clarify those dependencies on page 146.

Notes:

Example:

160.05<tab>A<tab>105021301<tab>Client ID 20chars <tab>20160401<tab>20160601
<tab>53067<tab>23<tab>1234567890<tab>Z<tab>9<tab>1234567890<tab>10<tab>20160701 <tab>SourceTrackingID
40chars

Definition:

This transaction documents each hearing under the Involuntary Treatment Act (ITA) filed in a specific county. This excludes filings at a state hospital. If multiple hearings are held for the same person on the same day, record the decision of the court for the most recent hearing. If no decision is made at a hearing and the case is continued to another day, do not record the result of that hearing. Record only those hearings where a court makes a decision, such as to commit, revoke, conditionally release, or dismiss.

It is the responsibility of the contractor, where the investigation occurred, to ensure that if they report an investigation resulting in a detention, where a petition for a hearing also occurred for that client, that the associated ITA Hearing is also reported to DBHR. The ITA Hearing transaction should be submitted by the contractor in which the hearing occurred. This may be different than the contractor who reported the ITA Investigation.

This transaction reporting expectation is within 24 hours of the contractor receiving this information due to the importance of this data. This is an exception to the standard contract terms for data reporting timeliness.

Transaction ID:	162.05	Type	Length	Allow Null
ACTION CODE:	"A" Add "C" Change "D" Delete	Varchar	1	N
Primary Key:	SUBMITTER ID	Varchar	20	N
	CLIENT ID	Varchar	20	N
	HEARING DATE	Date	CCYYMMDD	N
Body	HEARING OUTCOME	Varchar	2	N
	DETENTION FACILITY NPI (Same as that used in the DCR Investigation transaction)	Varchar	10	Y
	HEARING COUNTY	Varchar	5	N
	SOURCE TRACKING ID	Varchar	40	Y

Rules:

- Only collected for persons being investigated under the Involuntary Treatment Act
- Valid hearing date, client ID, hearing county, and hearing outcome are required.
- Concurrent Transactions: DCR Investigation 160.05

Notes:

Example:

	DATE LAST USED (2)	Date	CCYYMMDD	Y
	SUBSTANCE (3)	Varchar	2	N
	AGE AT FIRST USE (3)	Varchar	2	N
	FREQUENCY OF USE (3)	Varchar	2	N
	PEAK USE (3)	Varchar	2	N
	METHOD (3)	Varchar	2	N
	DATE LAST USED (3)	Date	CCYYMMDD	Y
	SOURCE TRACKING ID	Varchar	40	Y

Rules:

- Must be reported at admission, at least every 90 days or upon change whichever comes first and at discharge for all SUD clients. SUD inpatient Provider Agencies are not exempt from reporting.
- Must always report effective date with this transaction. Note that the Effective Date is in the Primary Key. To update an existing record, the Effective Date must match. If not, a new Substance Use record will be added.
- The substances reported are left to the clinician's judgement.

BHDS Data Guide

[Return to Table of Contents](#)

- The substances must be ranked by relative importance of seriousness of dependency as provided by the client and determined by the clinician. This rank is represented in the order the substances are reported, with (1) having a higher rank of seriousness than (2) or (3).
- The 3 Substances reported at admission must also be reported at discharge, and at the 90-day updates (whether or not they are still using the substance). Also, the order of the 3 Substances is reported at 90-day updates and discharge must stay the same as that reported at admission.
- The following must be included for each substance being reported:
 - AGE AT FIRST USE (report only at admission)
 - FREQUENCY OF USE
 - PEAK USE
 - METHOD
 - DATE LAST USED
- If there is no substance 2 or 3, then report “none” (code 1) for SUBSTANCE (2) and/or SUBSTANCE (3) and leave the respective fields AGE AT FIRST USE, FREQUENCY OF USE, PEAK USE, METHOD and DATE LAST USED blank. Substances 2 and 3 can be updated later if the admission substances were inaccurately reported or not disclosed by the client; however, must be reported consistently (admission to discharge).
- If Substance 2 and 3 are reported, all elements are required, except Source Tracking ID.

Data Element Definitions

Data element definitions are classified into sections.

Identifiers

SUBMITTER ID

Section: Identifier

Definition:

The unique identifier assigned to each contractor by ProviderOne. It is the same identifier used for sending 837 encounters to ProviderOne.

Code Values Not Applicable

Rules:

- The submitter ID is the 7-digit ProviderOne ID plus the 2-digit location code.

Frequency:

- Collected for each record as identifying record information.

Data Use:

- Identifiers are collected at each transaction as a primary key to differentiate transactions by contractor.

Validation:

- Unique by contractor.
- 23300 Error: ProviderOne ID is not a valid ProviderOne ID. Transaction not posted.

History:

Notes:

- SUBMITTER ID applies to all contractors.

Client ID

Section: Identifier

Definition:

A unique identifier assigned to each client. The Client ID is used in 837 encounter data file submissions to ProviderOne.

Code Values Not Applicable

Rules:

- Required for all clients.
- The ProviderOne Client ID is to be used for all Medicaid clients.
- The non-Medicaid Client ID is to be used when there is no ProviderOne ID.
- A non-Medicaid Client ID must be unique to the Submitter, regardless of the location identifier.

Frequency:

- Collected for each record as identifying record information for a client.

Data Use:

- Identifiers are collected at each transaction as a primary key to differentiate transactions by clients.
- Used for cascade delete and cascade merge.
- Community Mental Health Services Block Grant (MHBG).
- Substance Abuse Prevention and Treatment Block Grant (SABG) - Treatment Episode Data Set (TEDS) Reporting.

Validation:

- Unique by client, by contractor.

History:

Notes:

BHDS Data Guide

[Return to Table of Contents](#)

Provider NPI

Section: Identifier

Definition:

Indicates the provider agency's National Provider Identifier (NPI) as obtained through federal registration via ProviderOne. Submit Billing NPI unless specifically noted that the providing NPI is needed.

Code Values Not Applicable

Rules:

- Provider NPI submitted to BHDS must match ProviderOne registered code.
- Will be used to obtain the facility code in ProviderOne (2420c Loop – Service Facility Location Name) – Refer to Appendix for Instructions for submitting Site ID in P1.

Frequency:

- Provider NPI is collected when transactions need to be joined to ProviderOne data for reporting purposes.

Data Use:

- Provider NPI is used to join BHDS data with ProviderOne data. It is the only link between the two systems.

Validation:

- Must be valid in ProviderOne.

History:

Notes:

BHDS Data Guide

[Return to Table of Contents](#)

Batch Number

Section: Header

Definition:

A sequential number assigned to the batch file by the submitting contractor.

Code Values Not Applicable

Rules:

- When the batch number exceeds 99999, the submitting contractor will reset the batch number to 00001.
- Needs to be filled with leading zeros.

Frequency:

- Submitted for each transaction as the header to differentiate submissions by contractor.

Data Use:

- Batch number is for identifying unique batches by contractor.

Validation:

- Cannot be blank.
- Required for each submission.

History:

Notes:

Batch Date

Section: Header

Definition:

Date a batch file of transactions was created by a submitting contractor.

Code Values Not Applicable

Rules:

Frequency:

- Submitted for each transaction as the header to differentiate submissions by contractor.

Data Use:

- Batch identification

Validation:

- Cannot be blank.
- Required for each batch.
- Must be valid date.

History:

Notes:

- Batch Number and Batch Date will be the same throughout a single submission.

Cascade Merge

Client ID to Keep

Section: Cascade Merge

Definition:

A string of characters that uniquely identifies the referenced client within the system overseen by the contractor and used only in the cascade merge transaction. This Client ID will replace all instances of the “Client ID to Void” within the BHDS system.

Code Values Not Applicable

Rules:

- Required for a cascade merge.

Frequency:

- Collected for each record as identifying record information for a client.

Data Use:

- Used for cascade merge.

Validation:

- Checks whether ID has been previously voided.

History:

Notes:

Client ID to Void

Section: Cascade Merge

Definition:

A string of characters that uniquely identifies the referenced client within the system overseen by the MCO and used only in the cascade merge transaction. This will be replaced by the “Client ID to Keep” in all instances of the Client ID within the BHDS system. It will be permanently voided and disallowed for all future transactions.

Code Values Not Applicable

Rules:

- Required for a cascade merge.

Frequency:

- Collected for each record as identifying record information for a client.

Data Use:

- Used for cascade merge.

Validation:

- Checks whether ID has been previously voided.

History:

Notes:

Common Transaction Elements:

Effective Date

Section: Client Demographics, Address, Profile, Substance Use

Definition:

This field is found in the following transactions and indicates the date the information was applicable.

Code Values Not Applicable

Rules:

- Must always be reported within the Client Demographics, Client Address, Client Profile, and Substance Use transactions
- When found in the primary key of the transaction, this must match the Effective Date of a previous record or changes will not be applied and a new record will be created.

Frequency:

- Collected for each record as identifying record information for a record.

Data Use:

Effective Date is used in the following transactions to record the date the information is applicable/collected:

- Client Demographics
- Client Address
- Client Profile
- Substance Use

Validation:

- Cannot be blank.
- Required for each transaction specified.
- Must be valid date.

History:

Notes:

BHDS Data Guide

[Return to Table of Contents](#)

Source Tracking ID

Section: All Transactions

Definition:

This field is found in all transactions and indicates the record ID from the source system in order for subcontractors to reconcile data to their systems. This is a field and was added at the request of the contractor.

Code Values Not Applicable

Rules:

- Does not allow special characters except Dash (-), Underscore (_), and Period(.

Frequency:

- Collected for each record as identifying record information for a record in the subcontractors' source system.

Data Use:

- Reconcile data to subcontractors' systems.

Validation:

- No validation exists in this element.

History:

Notes:

Client Demographics 020.08

First Name

Section: Client Demographics

Definition:

Indicates the first/informal names of a client as provided by the contractor. Consistency is important, as the last name and first names are both used as elements to uniquely identify the person across the system.

Code Values Not Applicable

Rules:

- Required for all clients.

Frequency:

- Collected at request for service if possible and updated upon change.

Data Use:

- Identify the client.
- Community Mental Health Services Block Grant (MHBG)
- Substance Abuse Prevention and Treatment Block Grant (SABG) - Treatment Episode Data Set (TEDS) Reporting

Validation:

- None

History:

Notes:

BHDS Data Guide

[Return to Table of Contents](#)

Middle Name

Section: Client Demographics

Definition:

Indicates the full middle name of the client. Use the full middle name if available, otherwise use the middle initial.

Code Values Not Applicable

Rules:

- If no middle name or initial is available, leave blank.

Frequency:

- Collected at request for service if possible and updated upon change.

Data Use:

- Identify the client.
- Community Mental Health Services Block Grant (MHBG)
- Substance Abuse Prevention and Treatment Block Grant (SABG) - Treatment Episode Data Set (TEDS) Reporting

Validation:

- None

History:

Notes:

Last Name

Section: Client Demographics

Definition:

Indicates the surname/family/last name of a client as provided by a contractor. Consistency is important here, because the last name and first names are both used as elements to uniquely identify the person across the system.

Code Values Not Applicable

Rules:

- Required for all clients.
- Both apostrophes and hyphens are allowed.

Frequency:

- Collected at request for service if possible and updated upon change.

Data Use:

- Identify the client.
- Community Mental Health Services Block Grant (MHBG).
- Substance Abuse Prevention and Treatment Block Grant (SABG) - Treatment Episode Data Set (TEDS) Reporting.

Validation:

- Both apostrophes and hyphens are allowed.

History:

Notes:

Alternate Last Name

Section: Client Demographics

Definition:

Indicates any other last name by which the client may have reported.

Code Values Not Applicable

Rules:

- Collect if client has an alternate last name for all clients.
- If client has multiple alternate last names, choose one.
- If client has no alternate last name leave blank, do not enter “same as above”, “none”, “N/A”, etc.
- Both apostrophes and hyphens are allowed

Frequency:

- Collected at request for service if possible and updated upon change.

Data Use:

- Identify the client.
- Community Mental Health Services Block Grant (MHBG)
- Substance Abuse Prevention and Treatment Block Grant (SABG) - Treatment Episode Data Set (TEDS) Reporting

Validation:

- None

History:

Notes:

BHDS Data Guide

[Return to Table of Contents](#)

Social Security Number

Section: Client Demographics

Definition:

A number assigned by the Social Security Administration that identifies a client.

Code Values Not Applicable

Rules:

- Collect for all clients when possible.
- Leave blank if unknown or refused.
- Must be a valid Social Security Number

Frequency:

- Whenever possible or upon change

Data Use:

- Identify the client.
- De-duplication of clients – identifying clients with same name but are different people.
- Community Mental Health Services Block Grant (MHBG)
- Substance Abuse Prevention and Treatment Block Grant (SABG) - Treatment Episode Data Set (TEDS) Reporting

Validation:

- Does not allow obvious invalid numbers.
- 9 digits of the same number
- 9 sequential ascending or descending numbers
- More than 9 characters

History:

Notes:

BHDS Data Guide

[Return to Table of Contents](#)

Birthdate

Section: Client Demographics

Definition:

Indicates the date of birth (DOB) of the client.

Code Values Not Applicable

Rules:

- If DOB is not available, enter 29991231.

Frequency:

- Collected on date of first date of contact or as soon as possible thereafter and updated if corrections needed.

Data Use:

- Used to derive the client's age.
- Community Mental Health Services Block Grant (MHBG)
- Substance Abuse Prevention and Treatment Block Grant (SABG) - Treatment Episode Data Set (TEDS) Reporting

Validation:

- Cannot be blank.
- Required for client demographics transaction.
- Must be valid date, not in the future, or if not available enter 29991231.

History:

Notes:

BHDS Data Guide

[Return to Table of Contents](#)

Gender

Section: Client Demographics

Definition:

Indicates a person's self-identified gender.

Code Values:

Code	Value	Definition
1	Female	
2	Male	
4	Transgender	Gender identity differs from the sex they were assigned at birth
5	Intersex	Person born with characteristics of both
7	Transgender female	Designated male at birth but identifies as female: Code as male
8	Transgender male	Designated female at birth but identifies as male: Code as female
97	Unknown	Unknown
98	Refused	Person refused to answer

Historical Code Values:

Code	Value	Effective Start Date	Effective End Date

Nationally Accepted HIT Code Crosswalk:

Value	LOINC® Answer ID	LOINC Comment	SNOMED CT®	SNOMED Comment	HL7 Version 3	HL7 Comment
Female			446141000124107	Female		
Male			446151000124109	Male

Refused					ASKU	Choose not to disclose

BHDS Data Guide

[Return to Table of Contents](#)

Rules:

- Only one option allowed.
- Required for all clients.

Frequency:

- Collected on date of first service or whenever possible and updated if corrections needed.

Data Use:

- Community Mental Health Services Block Grant (MHBG)
- Substance Abuse Prevention and Treatment Block Grant (SABG) - Treatment Episode Data Set (TEDS) Reporting

Validation:

- Cannot be blank.
- Required for client demographics transaction.
- Must be valid code.

History:

Notes:

- In a more limited list that only includes male, female, or unknown, transgender male would be coded as female, and transgender female would be coded as male.

Hispanic Origin

Section: Client Demographics

Definition:

Indicates the Hispanic origin the client associates with (e.g., Mexican, Puerto Rican, Cuban, Central American, or South American, or other Spanish origin or descent, regardless of race). Hispanic denotes a place of origin or cultural affiliation rather than a race (i.e., a person can be both white and Hispanic or black and Hispanic and so on).

Code Values:

Code	Value	Definition
709	Cuban	
000	Hispanic - Specific Origin Unknown	
722	Mexican	
998	Not of Hispanic Origin	
799	Other Specific Hispanic (e.g., Chilean, Salvadoran, Uruguayan)	
727	Puerto Rican	
999	Unknown	

Historical Code Values:

- Required for client demographics transaction.
- Must be valid code.

History:

Notes:

Primary Language

Section: Client Demographics

Definition:

Indicates the primary speaking language of the client as used in the home, even if that language is English.

Code Values:

See Appendix G

Rules:

- Only one option allowed.
- Required for all clients. Submit “eng” if the primary speaking language of the client is English.

Frequency:

- Collected on date of request for service or whenever possible and updated whenever status changes.

Data Use:

- Community Mental Health Services Block Grant (MHBG)

Validation:

- Must be valid code.

History:

Notes:

- Source for ProviderOne language list
- Primary language is contained in Appendix G.

Race(s)

Section: Client Demographics

Definition:

Indicates the race(s) the client identifies as. Race categories are based on the US Department of Health and Human Services implementation collection standards for race and ethnicity with the addition of 3 categories: Cambodian, Laotian, and Middle Eastern.

Code Values:

Code	Value	Definition
021	American Indian/ Alaskan Native	
031	Asian Indian	
040	Black or African American	
604	Cambodian	
605	Chinese	
608	Filipino

Sexual Orientation

Section: Client Demographics

Definition:

Indicates a clients voluntarily stated sexual orientation.

Code Values:

Code	Value	Definition
1	Heterosexual	Attraction to persons of the opposite sex
3	Gay/Lesbian/Queer/Homosexual	Attraction to persons of the same sex.
4	Bisexual	Term for women and men whose sexual/affectional identity is oriented to members of both the same and opposite sex.
5	Questioning	Term generally used for adolescents who may be in the process of becoming more comfortable with their sexual orientation identification. Usually describes a youth who may be exploring identifying as gay/lesbian in a culture that generally assumes identification as heterosexual.
9	Choosing not to disclose	Use when an individual is uncomfortable or unwilling to disclose their sexual orientation.

Historical Code Values:

Code	Value	Effective Start Date	Effective End Date

Rules:

- Only one option allowed.
- Required for all clients.
- Do not collect for individuals under age 13, instead report 9-Choosing not to disclose.
- If an assessment occurs and age is 13 and over, 9- Choosing not to disclose is an acceptable response.

Frequency:

- Collected on date of request for service or whenever possible and updated whenever status changes.

Data Use:

- Community Mental Health Services Block Grant (MHBG)
- Substance Abuse Prevention and Treatment Block Grant (SABG) - Treatment Episode Data Set (TEDS) Reporting

Validation:

- Cannot be blank.

Client Address 022.03

Address Line 1

Section: Client Address

Definition:

Indicates the street address where the client currently resides.

Code Values Not Applicable

Rules:

- Required for all clients.
- Use US Postal Addressing Standards for address

Frequency:

- Collected at request for service if possible and updated upon change.
- Required field for all clients.
- Optional for SUD clients in withdrawal management services but should be reported if possible.
- If unknown, write “unknown” in this field (ADDRESS LINE 1). Do not put unknown in any of the other Address fields, leave them blank.
- If address of residency is not available, then submit the client’s mailing address; if mailing is not available, report address elements available; at a minimum report county and city.
- If client is homeless or unable to provide a physical street address, report what is available, and must include city, county and state or zip code. In the case of residence in a tent in the woods, report closest city, county, and state or zip code (or the closest by proximity), but do not report provider agency as the closest proximity.

Data Use:

- Identify the client.
- Community Mental Health Services Block Grant (MHBG)
- Substance Abuse Prevention and Treatment Block Grant (SABG) - Treatment Episode Data Set (TEDS) Reporting
- Reports for legislature.
- Program evaluation

State

Section: Client Address

Definition:

Indicates the US postal service standard two-letter abbreviation of the state where the client currently resides.

Code Values:

Code	Value	Code	Value
Alabama	AL	Missouri	MO
Alaska	AK	Montana	MT
Arizona	AZ	Nebraska	NE
Arkansas	AR	Nevada	NV
California	CA	New Hampshire	NH
Colorado	CO	New Jersey	NJ
Connecticut	CT	New Mexico	NM
Delaware	DE	New York	NY
District of Columbia	DC	North Carolina	NC
Florida	FL	North Dakota	ND
Georgia	GA	Ohio	OH
Hawaii	HI	Oklahoma	OK
Idaho	ID	Oregon	OR
Illinois	IL	Pennsylvania	PA
Indiana	IN	Puerto Rico	PR
Iowa	IA	Rhode Island	RI
Kansas	KS	South Carolina	SC
Kentucky	KY	South Dakota	SD
Louisiana	LA	Tennessee	TN
Maine	ME	Texas	TX
Maryland	MD	Utah	UT
Massachusetts	MA	Vermont	VT
Michigan	MI	Virginia	VA
Minnesota	MN	Washington	WA
Other Country	OT	West Virginia	WV

Historical Code Values:

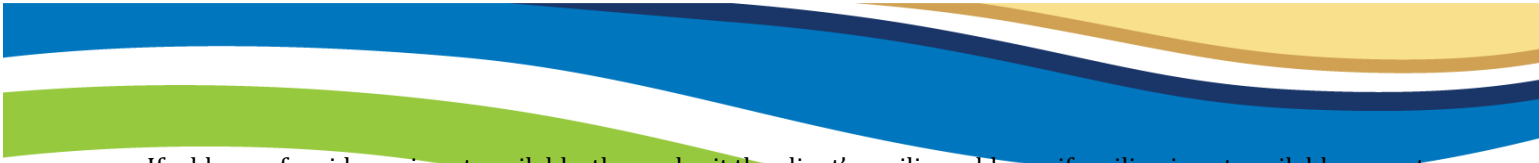

Code	Value	Effective Start Date	Effective End Date

Rules:

- Use US Postal Addressing Standards for address
- Required for all clients.
- Optional for SUD clients in withdrawal management services but should be reported if possible.

BHDS Data Guide

[Return to Table of Contents](#)

- 
- If address of residency is not available, then submit the client's mailing address; if mailing is not available, report address elements available; at a minimum report county and city.
 - If client is homeless or unable to provide a street address, report what is available, including city, state, or zip code. In the case of residence in a tent in the woods, report closest city, state, or zip code (or the closest by proximity), but do not report provider agency as the closest proximity.
 - For addresses from other countries select OT and other address field elements can be left blank

Frequency:

- Collected at request for service if possible and updated whenever there are changes.

Data Use:

- Identify the client.

Employment

Section: Client Profile

Definition:

Indicates the client's current employment or primary daily activity as per Washington Administrative Code 458-20-267. If the client engages in multiple employment or daily activities, report the highest level of employment or activity.

Code Values:

Code	Value	Definition
01	FULL TIME – works at least 35 hours per week; includes members of the Armed Forces, and clients in full-time Supported Employment	
02	PART TIME – works less than 35 hours per week; includes clients in part-time Supported Employment	
03	UNEMPLOYED – defined as actively looking for work or laid off from job (and awaiting to be recalled) in the past 30 days	
05	EMPLOYED – FULL TIME/PART TIME– full time or part time status cannot be ascertained	
Use the appropriate valid code for the specified classification of a person who is 'Not in the Labor Force,' defined as not employed and not actively looking for work during the past 30 days (i.e., people not interested to work or people who have been discouraged to look for work).		
14	HOMEMAKER	
24	STUDENT	
34	RETIRED	
44	DISABLED	
64	OTHER REPORTED CLASSIFICATION	E.g., volunteers
74	SHELTERED/NON-COMPETITIVE EMPLOYMENT	
84	NOT IN THE LABOR FORCE-CLASSIFICATION NOT SPECIFIED	
96	NOT APPLICABLE	
97	UNKNOWN	
98	NOT COLLECTED	

Historical Code Values:

Code	Value	Effective Start Date	Effective End Date

Rules:

- Required for all clients.
- Collected at admission and discharge and at least every 90 days or upon change whichever comes first.
- “Highest level of employment or activity” corresponds to the value code (i.e., code 01, FULL TIME is a higher level than code 02, PART TIME).
- Only use Code 98 (NOT COLLECTED) if unable to collect because crisis phone service or pre-intake service was provided.

Residence

Section: Client Profile

Definition:

Indicates client's primary residence over the last 30 days preceding date of collection.

Code Values:

Code	Value	Definition
1	Homeless without housing	Individual primarily resides "on the street" or in a homeless shelter.
2	Foster Home/ Foster Care	Individual resides in a foster home. A foster home is a home that is licensed by a county or State department to provide foster care to children, adolescents, and/or adults. This includes therapeutic foster care facilities. Therapeutic foster care is a service that provides treatment for troubled children within private homes of trained families.
3	Residential Care	Individual resides in a residential care facility. This level of care may include a group home, therapeutic group home, board and care, residential treatment, rehabilitation center, or agency-operated residential care facilities.
4	Crisis Residence	A time-limited residential (24 hours/day) stabilization program that delivers services for acute symptom reduction and restores clients to a pre-crisis level of functioning.
5	Institutional Setting	Individual resides in an institutional care facility with care provided on a 24 hour, 7 days a week basis. This level of care may include skilled nursing/ intermediate care facility, nursing homes, institute of mental disease (IMD), inpatient psychiatric hospital, psychiatric health facility, veterans' affairs hospital, or state hospital.
6	Jail/ Correctional Facility	Individual resides in a jail and/or correctional facility with care provided on a 24 hour, 7 days a week basis. This includes a jail, correctional facility, detention centers, and prison.
7	Private Residence	For adults only: this category reflects the living arrangement of adult clients where "independent" /" dependent" status is unknown. Otherwise, use "independent living" /" dependent living" as appropriate.
8	Independent Living	For adults only: this category describes adult clients living independently in a private residence and capable of self-care. It includes clients who live independently with case management support or with supported housing supports. This category also includes clients who are largely independent and choose to live with others for reasons not related to mental illness. They may live with friends, spouse, or other family members. The reasons for shared housing could include personal choice related to culture and/or financial considerations.
9	Dependent Living	For adults only: this category describes adult clients living in a house, apartment, or other similar dwellings and are heavily dependent on others for daily living assistance
10	Private Residence	For children only – use this code for all children living in a private residence regardless of living arrangement.
11	Other Residential Status	
12	Homeless with housing	Individual does not have a fixed regular nighttime residence and typically stays ("couch surfs") at the home of family or friends.
97	Unknown	

BHDS Data Guide

Historical Code Values:

Code	Value	Effective Start Date	Effective End Date

Rules:

- Only one option allowed.
- Required for all clients.
- Use “Unknown” if a particular situation does not fit in one of the categories.
- Codes for “PRIVATE RESIDENCE – adult only”, “DEPENDENT LIVING”, and “INDEPENDENT LIVING” should be used for adult clients only (age 18 and over)
- Children / Adults who live in family foster homes and therapeutic foster homes should use “FOSTER HOME/FOSTER CARE” and NOT “PRIVATE RESIDENCE”
- Although reported at least every 90 days or upon change whichever comes first, the living situation indicates where the client was the majority of the time in the preceding 30 days. It is optional to report this element on a more frequent basis in order to capture a change in residence.

Frequency:

- Collected on date of first service or whenever possible and updated whenever status changes.

Data Use:

Validation:

- Must be valid code.

SMI/SED Status

Section: Client Profile

Definition:

Indicates whether the client has serious mental illness (SMI) or serious emotional disturbance (SED) using the state definition. Use the most recent available status at the end of the reporting period.

Serious Mental Illness (SMI): Pursuant to section 1912(c) of the Public Health Service Act, adults with serious mental illness SMI are persons: (1) age 18 and over and (2) who currently have, or at any time during the past year had a diagnosable mental behavioral or emotional disorder of sufficient duration to meet diagnostic criteria specified within DSM-IV or their ICD-9-CM equivalent (and subsequent revisions) with the exception of DSM-IV "V" codes, substance use disorders, and developmental disorders, which are excluded, unless they co-occur with another diagnosable serious mental illness. (3) That has resulted in functional impairment, which substantially interferes with or limits one or more major life activities. Federal Register Volume 58 No. 96 published Thursday May 20, 1993, pages 29422 through 29425.

Serious Emotional Disturbance (SED): Pursuant to section 1912(c) of the Public Health Service Act "children with a serious emotional disturbance" are persons: (1) from birth up to age 18 and (2) who currently have, or at any time during the last year, had a diagnosable mental, behavioral, or emotional disorder of sufficient duration to meet diagnostic criteria specified within DSM-III-R. Federal Register Volume 58 No. 96 published Thursday May 20, 1993 pages 29422 through 29425.

Note: The above definitions are the current Federal definitions. HCA expects that contractors' and their providers will use the appropriate DSM 5 and/or ICD 10 diagnostic coding conventions.

Code Values:

Numeric (1 character)

Code	Value	Definition
1	SMI	
2	SED	
3	At risk for SED	Optional
4	Not SMI or SED	
97	Unknown	Individual client value is unknown.
98	Not collected	Field is not collected

Rules:

- Community-based and state hospital or other inpatient populations
- Use code 4 (*Not SMI or SED*) if the client has not been found eligible for SMI or SED services.
- Use code 97 (*Unknown*) for client undergoing evaluation for SMI or SED eligibility pending any decision.

Frequency:

- Report at discharge or most recent available at the end of the reporting period for clients remaining in the SMHA caseload.

BHDS Data Guide

[Return to Table of Contents](#)

Data Use:

- SAMHSA MH-CLD Field Number C-08

Validation:

- May not contain NULL/BLANK values.
- When client's age is 17 years or younger, code 1 cannot be used.
- When client's age is 18 years or older, code 2 and 3 cannot be used. Exception: codes 2 or 3 may be used for young adults, 18-21 years old, who are protected under the IDEA and continue to receive mental health services from the state's children mental health system.
- When MHBG Funded Services = 1, SMI/SED Status (C-08) must either = 1 or 2

Notes:

Service Episode Start Date

Section: Service Episode

Definition:

The date that starts the time period in which a client is served by a provider, based on the contractors' authorization to pay for those services within a particular episode of care.

Code Values Not Applicable

Rules:

- This is provider agency specific.
- Required for substance use disorder and mental health clients who are enrolled in a special program.
- A client may have multiple service episodes, i.e., at the same provider agency and/or multiple provider agencies.

Frequency:

- Collected on date of first service or when episode starts.

Data Use:

- Substance Abuse Prevention and Treatment Block Grant (SABG) - Treatment Episode Data Set (TEDS) Reporting

Validation:

- Must be valid date.

History:

Notes:

Service Episode End Date

Section: Service Episode

Definition:

The date that ends the time period in which a client is served by a provider, based on the contractors' authorization to pay for those services within a particular episode of care.

Code Values Not Applicable

Rules:

- Required for all clients when an episode of care is closed or ends.

Frequency:

- Collected at discharge or end of treatment for all programs and mental health treatment.

Data Use:

Validation:

- Must be valid date.

History:

Notes:

Service Episode End Reason

Section: Service Episode

Definition:

- Indicates the primary reason the client is being discharged from treatment.
- “Lost to Contact” is used for clients who did not get back to the provider agency and are not able to be contacted.
- “Left against advice, including dropout” is a termination of treatment initiated by the client, without the Provider Agency’s concurrence.
- “Terminated by facility” is a termination of treatment services that is initiated by the provider agency in response to a client’s continued violation of the provider agency’s established rules or in response to a client’s inability to continue participating in treatment (i.e., medical reasons, transfer of job, etc.).

Code Values:

Code	Value	Definition
01	Treatment completed	All parts of the treatment plan or program were completed.
02	Dropout	Client chose not to complete treatment program, with or without specific advice to continue treatment. Includes clients who drop out of treatment for unknown reasons, clients with whom contact is lost, clients who fail to return from leave ("AWOL"), and clients who have not received treatment for some time and are discharged for administrative purposes.
03	Terminated by facility	Treatment terminated by action of facility, generally because of client non-compliance with treatment or violation of rules, laws, policy, or procedures.
04	Transferred client showed	Client was transferred to another treatment program, provider, or facility for continuation of treatment.
05	Incarcerated	Clients whose course of treatment is terminated because the client has been subject to jail, prison, or house confinement, or has been released by or to the courts.
06	Death by Suicide	Death by Suicide
07	Death Not by Suicide	Death Not by Suicide
08	Other	Client transferred or discontinued treatment because of change in life circumstances. Examples: change of residence, illness, or hospitalization, "aging out" of children's services, completion of MH assessment or evaluation that did not result to referral for a treatment service.
09	Lost to Contact	Client who has received outpatient services and the provider agency is unable to contact.
10	Administrative Closure	No client activity \geq 45 days (SUD) or \geq 90 days (MH). Primarily used for opened service episodes and program identification transactions with begin dates prior to 20200101.
14	Transferred Client no show	Transferred to another treatment program or facility but client is no show. Client was transferred to another treatment program, provider, or facility, and it is known that client did not report for treatment.
24	Transferred to non SSA or SMH facility	Transferred to another treatment program or facility that is not in the SSA or SMHA reporting system for example, client is transferred to a Medicaid facility that is not mandated to report client data to the state substance abuse/behavioral health agency. The receiving facility is outside the purview of the Substance Use Agency (SSA) or State Mental Health Agencies (SMHA).

BHDS Data Guide

Service Referral Source

Section: Service Episode

Definition:

Indicates the client's primary referral source to treatment.

Code Values:

Code	Value	Definition
1	Individual (includes self-referral)	Includes the client, a family member, friend, or any other individual who would not be included in any of the following categories include self-referral due to pending driving while intoxicated/driving under the influence (DWI/DUI).
2	Alcohol/Drug Abuse Provider	Any program, clinic, or other health care provider whose principal objective is treating clients with substance abuse problems, or a program whose activities are related to alcohol or other drug abuse prevention, education, or treatment.
4	Other Health Care Provider	A physician, psychiatrist, or other licensed health care professional; or general hospital, psychiatric hospital, mental health program, or nursing home.
6	School (Educational)	A school principal, counselor, or teacher; or a student assistance program (SAP), the school system, or an educational agency.
7	Employer/Employee Assistance Program (EAP)	A supervisor or an employee counselor.
8	Court/Criminal Justice/DUI/DWI	Any police official, judge, prosecutor, probation officer, or other person affiliated with a federal, state, or county judicial system. Includes referral by a court for DWI/DUI, clients referred in lieu of or for deferred prosecution, or during pretrial release, or before or after official adjudication. Includes clients on pre-parole, pre-release, work or home furlough, or Treatment Alternatives for Safe Communities (TASC). Client need not be officially designated as "on parole." Includes clients referred through civil commitment.
9	Other Community Referral	Community or religious organization or any federal, state, or local agency that provides aid in the areas of poverty relief, unemployment, shelter, or social welfare. This category also includes defense attorneys and self-help groups such as Alcoholics Anonymous (AA), Al-Anon, and Narcotics Anonymous (NA).
97	Unknown	Individual client value is unknown

Historical Code Values:

Code	Value	Effective Start Date	Effective End Date
3	Mental Health Provider	2016-01-01	2020-06-30
5	Self Help Group	2016-01-01	2020-06-30

Rules:

- Only one option allowed.
- Required for all clients.
- Choose the primary referral source to the service episode.

Frequency:

- Reported when an episode of care is opened by a provider agency.

Data Use:

- Substance Abuse Prevention and Treatment Block Grant (SABG) - Treatment Episode Data Set (TEDS) Reporting

Validation:

- Must be valid code.
- May not be Null or Blank.

History:

Notes:

- Codes 3 and 5 have been merged with code 4.
- Both Referral Source tables in Program Identification and Service Episode contain the same values

Date of Last Contact

Section: Service Episode

Definition:

Any contact with a response is considered a last contact.

Code Values Not Applicable

Rules:

- If a Service Episode End Date has been reported, then a date of last contact is required.

Frequency:

Data Use:

Validation:

- The record must have a valid date.
- MM must be 01 through 12.
- DD must be 01 through 31.
- YYYY must be 2001 or later.

Notes:

Source: <https://www.hca.wa.gov/assets/billers-and-providers/data-dictionary.pdf> (page F-4)

Date of First Offered Appointment

Section: Service Episode

Definition:

Records the date of the first appointment for face-to-face service offered by the agency for a particular client related to this specific treatment episode.

Code Values Not Applicable

Rules:

- Examples include the date of the first orientation group or assessment for the client or the admission /intake session.
- Required for all clients.

Frequency:

Data Use:

Validation:

- The record must have a valid date.
- Must not contain Null/Blank values.
- MM must be 01 through 12.
- DD must be 01 through 31.
- YYYY must be 2001 or later.

Notes:

Medication-Assisted Opioid Therapy

Section: Service Episode

Definition:

This field identifies whether the use of opioid medications such as methadone, buprenorphine, and/or naltrexone (for example) is part of the client's treatment plan.

Code Values:

Code	Value	Definition
1	Yes	
2	No	
3	Not applicable	
7	Unknown	Individual client value is unknown.
8	Not collected	Organization does not collect this field.

Rules:

- Substance abuse reporting: If the client is not in treatment for an opioid problem (codes 05 Heroin, 06 Non-prescription methadone, or 07 Other opiates and synthetics) in one of the Substance Abuse Problem fields, this field may be coded 3 Not applicable. This is not mandatory because it is possible that the client is being treated with opioid therapy for a substance abuse problem not among the maximum of three that can be listed.
- Mental health reporting: Reporting of this information on a mental health record is allowed only for clients with co-occurring mental health and substance abuse problems.

Frequency:

Data Use:

Program Identification 060.06

Program ID Key

Section: Program Identification

Definition:

Unique identifier for the program instance.

Code Values Not Applicable

Rules:

- Only one option allowed.
- Required for all substance use disorder clients who are in a program with a Program ID.
- Must be unique for each transaction.

Frequency:

Data Use:

Validation:

- Must be valid code.
- Does not allow special characters except Dash (-), Underscore (_), and Period(.).

History:

Notes:

Program ID

Section: Program Identification

Definition:

Indicates the program in which a client is enrolled.

Code Values:

Code	Value
1	PACT Program for Assertive Community Treatment: The Program for Assertive Community Treatment (PACT) is an evidence-based practice for people with the most severe and persistent mental illnesses, with active symptoms and impairments, and who have not benefited from traditional outpatient programs. PACT is a person-centered, recovery-oriented mental health service delivery model that has received substantial empirical support for reducing psychiatric hospitalizations, facilitating community living, and enhancing recovery. PACT teams are either “full teams” serving up to 100 individuals, or “half-teams” serving up to 50 individuals.
2	Chemical Dependency Disposition Alternative committable (CDDA COMM): This program is concerning mental health and chemical dependency treatment for juvenile offenders. Committable youth to participate in CDDA as a sentencing option for juvenile offenders. The goal is to reduce recidivism by providing a treatment option for chemically dependent or substance abusing youth. The Chemical Dependency Disposition Alternative (CDDA) is an alternative sentence for juvenile offenders who may need chemical dependency treatment. A juvenile offender is eligible for a CDDA if subject to a standard-range disposition of local sanctions or 13 to 36 weeks of confinement and has not committed an A-minus or B-plus offense, other than a first time B-plus drug offense. In these cases, the court may order a chemical dependency evaluation to determine if the youth is chemically dependent. If the court determines that a CDDA is appropriate, the court must impose a disposition and suspend that disposition with a condition that the juvenile undergo outpatient or inpatient chemical dependency treatment. Inpatient treatment for this purpose must not exceed 90 days. The court may also impose conditions of community supervision and other sanctions as part of the CDDA.
3	Chemical Dependency Disposition Alternative locally sanctioned (CDDA LS): This program is concerning mental health and chemical dependency treatment for juvenile offenders. Locally sanctioned youth to participate in CDDA as a sentencing option for juvenile offenders. The goal is to reduce recidivism by providing a local supervision option for chemically dependent or substance abusing youth. The Chemical Dependency Disposition Alternative (CDDA) is an alternative sentence for juvenile offenders who may need chemical dependency treatment. A juvenile offender is eligible for a CDDA if subject to a standard-range disposition of local sanctions or 13 to 36 weeks of confinement and has not committed an A-minus or B-plus offense, other than a first time B-plus drug offense. In these cases, the court may order a chemical dependency evaluation to determine if the youth is chemically dependent. If the court determines that a CDDA is appropriate, the court must impose a disposition and suspend that disposition with a condition that the juvenile undergo outpatient or inpatient chemical dependency treatment. Inpatient treatment for this purpose must not exceed 90 days. The court may also impose conditions of community supervision and other sanctions as part of the CDDA.
10	Children’s Evidenced Based Pilot: Children’s services are expected to receive a grant, and definition will be provided at a later date if grant is received.
11	Jail Services: Jail-based transitional mental health services for incarcerated individuals. State funds only. Includes services to individuals who have been referred by jail staff. These individuals are incarcerated and have been diagnosed with a mental illness or identified as in need of mental health services. Services can include transition services to persons with mental illness to expedite and facilitate their return to the community. Services include referrals for intake of persons who are not enrolled in community mental health services but who meet priority groups as defined in RCW 71.24. The Contractor must conduct mental health intake assessments for these persons and when appropriate provide transition services prior to their release from jail.
19	Functional Family Therapy:

BHDS Data Guide

[Return to Table of Contents](#)

	A phasic program where each step builds on one another to enhance protective factors and reduce risk by working with both the youth and the family . The phases are engagement, motivation, assessment, behavior change, and generalization .
20	Illness Self-Management/Illness Management & Recovery: Illness Self-Management (also called illness management or wellness management) is a broad set of rehabilitation methods aimed at teaching individuals with a mental illness strategy for: collaborating actively in their treatment with professionals; reducing their risk of relapses and re-hospitalizations; reducing severity and distress related to symptoms; and improving their social support. Specific evidence-based practices that are incorporated under the broad rubric of illness self-management are psychoeducation about the nature of mental illness and its treatment, "behavioral tailoring" to help individuals incorporate the taking of medication into their daily routines, relapse prevention planning, teaching coping strategies to managing distressing persistent symptoms, cognitive-behavior therapy for psychosis, and social skills training. The goal of illness self-management is to help individuals develop effective strategies for managing their illness in collaboration with professionals and significant others, thereby freeing up their time to pursue their personal recovery goals.
21	Integrated Dual Disorders Treatment: Dual diagnosis treatments combine or integrate mental health and substance abuse interventions at the level of the clinical encounter. Hence, integrated treatment means that the same clinicians or teams of clinicians, working in one setting, provide appropriate mental health and substance abuse interventions in a coordinated fashion. In other words, the caregivers take responsibility for combining the interventions into one coherent package. For the individual with a dual diagnosis, the services appear seamless, with a consistent approach, philosophy, and set of recommendations. The need to negotiate with separate clinical teams, programs, or systems disappears. The goal of dual diagnosis interventions is recovery from two serious illnesses.
23	Multi-systemic Therapy: Multi-systemic therapy (MST) views the individual as nestled within a complex network of interconnected systems (family, school, peers). The goal is to facilitate change in this natural environment to promote individual change. The caregiver is viewed as the key to long-term outcomes
25	Supported Housing: Services to assist individuals in finding and maintaining appropriate housing arrangements. This activity is premised upon the idea that certain clients are able to live independently in the community only if they have support staff for monitoring and/or assisting with residential responsibilities. These staff assist clients to select, obtain, and maintain safe, decent, affordable housing and maintain a link to other essential services provided within the community. The objective of supported housing is to help obtain and maintain an independent living situation. Supported housing is a specific program model in which a consumer lives in a house, apartment, or similar setting, alone or with others, and has considerable responsibility for residential maintenance but receives periodic visits from mental health staff or family for the purpose of monitoring and/or assisting with residential responsibilities, criteria identified for supported housing programs include: housing choice, functional separation of housing from service provision, affordability, integration (with persons who do not have mental illness), right to tenure, service choice, service individualization and service availability.
26	Therapeutic Foster Care: Children are placed with foster parents who are trained to work with children with special needs. Usually, each foster home takes one child at a time, and caseloads of supervisors in agencies overseeing the program remain small. In addition, therapeutic foster parents are given a higher stipend than to traditional foster parents, and they receive extensive pre-service training and in-service supervision and support. Frequent contact between case managers or care coordinators and the treatment family is expected, and additional resources and traditional mental health services may be provided as needed.
28	Wraparound with Intensive Services (WISE): A range of service components that are individualized, intensive, coordinated, comprehensive, culturally competent, home and community-based services for children and youth who have a mental disorder that is causing severe disruptions in behavior interfering with their functioning in family, school, or with peers requiring: <ul style="list-style-type: none"> • The involvement of the mental health system and other child-serving systems (i.e., Juvenile justice, child-protection/welfare, special education, developmental disabilities), • Intensive care collaboration; and • Ongoing intervention to stabilize the child and family in order to prevent more restrictive or institutional placement.

	<p>WISe team members demonstrate a high level of flexibility and accessibility in accommodating families by working evenings and weekends, and by responding to crises 24 hours a day, seven days a week. The service array includes intensive care coordination, home and community-based services, and mobile crisis outreach services based on the individual's need and the cross-system care plan* developed by the Child and Family Team (CFT). Care is integrated in a way that ensures youth are served in the most natural, least restrictive environment. The intended outcomes are individualized but usually include increased safety, stabilization, and community integration to ensure that youth and families can live successfully in their homes and communities.</p> <p><i>*Cross System Care Plan: An individualized, comprehensive plan created by a CFT that reflects treatment services and supports relating to all systems or agents with whom the child is involved and who are participating on the CFT. This plan does not supplant but may supplement the official treatment plan that each system maintains in the client record.</i></p>
29	<p>Housing and Recovery through Peer Services (HARPS): Services intended to support individuals in the housing of their choice, with leases in their name. Services are focused on assisting the individual to achieve stability and maintain their tenancy, including engagement and care coordination for the individual's whole health and rehabilitative needs to live independently in the community. Identifying housing options, contacting prospective landlords, scheduling interviews, assisting with applications, and assistance with subsidy applications and supporting the individual once housed in collaboration with or on behalf of an individual. Mediate landlord-tenant, roommate, and neighbor issues. Skills training on interpersonal relations and landlord tenant rights/laws. These services should be client specific.</p>
30	<p>Supported Employment Program: Services that support individuals with behavioral health issues, who desire to be employed in the community. Services follow the principles of the SAMHSA evidence-based practice also known as Individual Placement and Support.</p> <ul style="list-style-type: none"> • Competitive employment is the goal. • Supported employment is integrated with treatment. • Eligibility is based on the individual's choice; people are not excluded because of their symptoms or current substance usage. • Attention to the individual's job preferences. • Benefits counseling is important. • Rapid job search after the individual expresses their desire to work. • Job development through the development of employer relationships. • Time-unlimited support.
31	<p>Ticket to Work Program: The development of an individual work plan that supports a person with their employment goals and assigns the individual's Ticket to the Social Security approved DBHR Employment Network. Individuals can receive Ticket to Work (TTW) services simultaneously with other services from any behavioral health program.</p>
32	<p>TANF Supported Employment: Temporary Assistance for Needy Families (TANF) Supportory Employment Pilot Project for TANF population in North Sound Mental Health Administration MCO.</p>
34	<p>CJTA (DC): Substance Use Disorder treatment funded through the Criminal Justice Treatment Account (CJTA) and Drug Court (DC). (RCW 70.96A, RCW 70.96A.055: Drug Courts, RCW 2.28.170; Drug Courts) Drug court funding is provided to the following counties: Clallam; Cowlitz; King; Kitsap; Pierce; Skagit; Spokane; and Thurston/Mason. The Contractor must ensure the provision of SUD treatment and support services in accordance with RCW 70.96A and RCW 2.28.170.</p>
35	<p>CJTA (NDC): Criminal Justice Treatment Account Non-Drug Court</p>
36	<p>Diversion Program: To improve the state's forensic mental health system, a prosecutor uses their discretion to dismiss a non-felony charge without prejudice if the issue of competency is raised. The client/defendant is referred for a mental health, substance abuse, or developmental disability assessment to determine the appropriate service needs of the client/defendant. The intent is to divert misdemeanor and low-level felony defendants from incarceration and hospitalization, into needed behavioral health treatment. Note: Active only for King, Benton/Franklin and Spokane as of 12/21/2020.</p>
37	<p>Roads to Community Living (RCL): The purpose of the "Roads to Community Living" (RCL) project is to examine how best to successfully help people with complex, long-term care needs transition from institutional to community settings. Grant funds provide services for each participant in preparation for their move and for their first year following transition.</p>

38	<p>New Journeys: New Journeys Coordinated Specialty Care (CSC) model for Transition Age Youth, ages 15-25, experiencing First Episode Psychosis (FEP). This early intervention approach offers real hope for clinical and functional recovery.</p> <p>Core components of CSC model include:</p> <ul style="list-style-type: none"> • Utilizing a coordinated team approach to provide intensive services • Assertive community outreach and education • Low-dosage medications • Psychotherapy (such as Cognitive Behavioral Therapy for Psychosis, Motivational Interviewing, and Individual Resiliency Training) • Skills training • Co-occurring substance use disorder counseling • Supported employment and education • Case management • Family psychoeducation • Primary Care Coordination • Peer support • 24 hour/day and 7 day/week crisis line <p>New Journeys Admission Criteria:</p> <ol style="list-style-type: none"> a. Age range: 15–25 years. b. Must live in King, Mason, Thurston, or Yakima County. c. Diagnoses: schizophrenia, schizoaffective and schizophreniform disorders, delusional, disorder, psychosis not otherwise specified (NOS). d. Duration of psychotic symptoms > 1 week and < 2 years. e. IQ over 70. f. Symptoms not known to be caused by a medical condition or drug use.
39	<p>BEST: The Becoming Employed Starts Today (BEST) project is designed to transform service delivery through promoting sustainable access to evidence-based Supported Employment. BEST provides consumers with meaningful choice and control of employment and support services. BEST utilizes Peer Counselors, reduces unemployment, and supports the recovery and resiliency of individuals with serious mental illness including co-occurring disorders.</p> <p>The Department of Social and Health Services (DSHS) secured the \$3.9 million federal grant from the Substance Abuse Mental Health Services Administration (SAMHSA) Center for Mental Health Services. The grant will provide services to 450 people over five years. North Central MCO and its provider Grant Mental Health and Columbia River Mental Health in Clark County are implementing the (BEST) project. Individuals with behavioral health issues, who desire to be employed, can access an approach to vocational rehabilitation known as Supported Employment (SE). This evidence-based practice adopted by SAMHSA assists individuals to obtain competitive work in the community and provides the supports necessary to ensure their success in the workplace.</p>
42	<p>Peer Bridger Program – Hospital & Community This program ID is used to enroll individuals who are receiving peer bridger services. These services are provided under the BHASO contract and can be provided in the state hospitals or local inpatient settings.</p>
43	<p>Peer Respite - This program ID is associated with the Governor’s Plan to transition individuals out of the state hospitals or divert individuals from entering inpatient settings. See HB1394 (2019)</p>
44	<p>Intensive Residential Teams- This program ID is associated with the Governor’s Plan to transition individuals out of the state hospitals or divert individuals from entering inpatient settings. It is intended to provide intensive services to individuals enrolled in AL TSA adult family homes or assisted living facilities.</p>
45	<p>Intensive Behavioral Health Facilities- This program ID is associated with the Governor’s Plan to transition individuals out of the state hospitals or divert individuals from entering inpatient settings. See HB1394 (2019)</p>
51	<p>Substance Use Disorder – Outpatient: Individual and group treatment services of varying duration and intensity according to a prescribed plan. ASAM Level 1: less than 9 hours per week (adults) less than 6 hours per week (adolescents) for recovery or motivational enhancement therapies/strategies.</p>

52	Substance Use Disorder – Intensive Outpatient: Intensive Outpatient: A concentrated program of individual and group counseling, education, and activities for detoxified alcoholics and addicts, and their families. ASAM level 2.1: 9 or more hours per week (adults) 6 or more hours per week (adolescents) to treat multidimensional instability.
54	Substance Use Disorder – Intensive Inpatient: A 24-hour care concentrated program of individual and group counseling, education, and activities for detoxified alcoholics and addicts, and their families. ASAM level 3.3-3.7: Hours of treatment service to be defined by program and individual treatment plan to treat multidimensional instability.
55	Substance Use Disorder – Long Term Residential: A program of treatment with personal care services for chronically impaired alcoholics and addicts with impaired self-maintenance capabilities. These patients need personal guidance to maintain abstinence and good health. ASAM level 3.1: 24-hour structured program with available personnel; at least 5 of clinical services/week (WAC 246-341-1114 defines services as a minimum of 2 hours each week individual or group counseling and minimum of 2 hours each week education regarding alcohol, other drug, and addiction).
56	Substance Use Disorder – Recovery House: A program of care and treatment with social, vocational, and recreational activities to aid in patient adjustment to abstinence and to aid in job training, employment, or other types of community activities. (WAC 246-341-1114 defines Recovery House services as 4 hours of individual, group counseling and education per week).
57	Substance Use Disorder – Withdrawal Management (aka Detox): Chemical dependency detoxification services are provided to an individual to assist in the process of withdrawal from psychoactive substances in a safe and effective manner, in accordance with American Society of Addiction Medicine Criteria level Withdrawal Management (WM)-3.2-3.7.
58	Substance Use Disorder – Opiate Substitution: Services include the dispensing of an opioid agonist treatment medication, along with a comprehensive range of medical and rehabilitative services, when clinically necessary, to an individual to alleviate the adverse medical, psychological, or physical effects incident to opiate addiction. These programs must also meet outpatient treatment service requirements.
59	Substance Use Disorder – Housing Support Services Provide housing support services for woman who are pregnant, postpartum, or parenting, and for their children, in drug and alcohol-free residences for up to 18 months. Housing support services are classified as support services rather than treatment.

Historical Code Values:

Code	Value	Effective Start Date	Effective End Date
40	1115 Waiver Supportive Housing	2016-01-01	2019-12-31
41	1115 Waiver Supportive Employment	2017-04-01	2019-12-31

Rules:

- Required for substance use disorder and mental health clients who are enrolled in a special program.
- Codes 51-58 capture services modalities for substance use clients.
- A client can be enrolled in more than one program at a time.

Frequency:

- Collected on date of program start.
- Codes 51-58 are required for substance use clients at admission, upon change and at discharge.

Co-occurring Disorder 121.05

GAIN-SS Date

Section: Co-occurring Disorder

Definition:

Date a screening or assessment (or both) was recorded.

Code Values Not Applicable

Rules:

- Only one option allowed.
- Required for all clients thirteen (13) and above through the use of DBHR provided Global Appraisal of Individual Needs – Short Screener (GAIN-SS).
- Required at assessment for all clients thirteen (13) and above through the use of DBHR provided Global Appraisal of Individual Needs – Short Screener (GAIN-SS).

Frequency:

- Collected on date of first service or whenever possible and updated whenever status changes.
- Collected and reported as outlined by each contractors' Prepaid Inpatient Health Plan (PIHP) contract.

Data Use:

- Community Mental Health Services Block Grant (MHBG)
- State Reporting

Validation:

- Must be valid date.

Screen Assessment Indicator

Section: Co-occurring Disorder

Definition:

An indicator used to identify if a Co-occurring Disorder transaction is used to report Global Assessment of Individual Needs-Short Screener (GAIN-SS) screening scores, a follow-up assessment, or both.

Code Values:

Code	Value	Definition
A	Co-Occurring Disorder Quadrant Assessment	
S	GAIN-SS Screening	
B	Both	

Rules:

- Only one option allowed.
- Required for all clients, thirteen (13) and above through the use of DBHR provided Global Appraisal of Individual Needs – Short Screener (GAIN-SS)

Frequency:

- Collected on date of first service or whenever possible and updated whenever status changes.
- Collected and reported as outline by each contractors' PIHP contract.

Data Use:

- Community Mental Health Services Block Grant (MHBG)
- State Reporting

Validation:

Co-Occurring Disorder Screening (IDS)

Section: Co-occurring Disorder

Definition:

The IDS score is one of three produced upon completion of the co-occurring disorders screening process. The IDS score is one of three scores from the outcome of a screening using GAIN-SS tool.

Code Values:

Code	Value	Definition
0	IDS Score of 0	
1	IDS Score of 1	
2	IDS Score of 2	
3	IDS Score of 3	
4	IDS Score of 4	
5	IDS Score of 5	
8	Refused	
9	Unable to Complete	

Historical Code Values:

Code	Value	Effective Start Date	Effective End Date

Rules:

- When reporting the outcome of a completed screening, a value between 0 (zero) and 5 must be provided for the IDS score.
- Use 8 to indicate the client refuses to participate in the specific scale.
- Use 9 to indicate the client is unable to complete the specific scale.
- Must attempt to screen all individuals ages thirteen (13) and above through the use of DBHR provided Global Appraisal of Individual Needs – Short Screener (GAIN-SS).

Frequency:

- Collected on date of first service or whenever possible and updated whenever status changes.
- Collected and reported as outline by each contractors' PIHP contract

Data Use:

- Community Mental Health Services Block Grant (MHBG)
- State Reporting

Validation:

Co-Occurring Disorder Quadrant Assessment

Section: Co-occurring Disorder

Definition:

Quadrant placement is based on clinical judgment of clients screened who have indications of a co-occurring mental illness and substance use based on GAIN-SS screening results.

Code Values:

Code	Value	Definition
1	Less severe mental health disorder/Less severe substance use disorder	
2	More severe mental health disorder/Less severe substance disorder	
3	Less severe mental health disorder/More severe substance disorder	
4	More severe mental health disorder/More severe substance disorder	
9	No Co-occurring treatment need	

Historical Code Values:

Code	Value	Effective Start Date	Effective End Date

Rules:

- Only one option allowed.
- Required for all clients, thirteen (13) and above through the use of DBHR provided Global Appraisal of Individual Needs – Short Screener (GAIN-SS)

Frequency:

- Required at intake/assessment for all clients only if the client screens high (2 or higher) on either the IDS or EDS, and on SDS.
- Collected and reported as outline by each contractors' PIHP contract

Data Use:

- Community Mental Health Services Block Grant (MHBG)

ASAM Placement 030.03

ASAM Record Key

Section: ASAM Placement

Definition:

A Unique value for the ASAM placement.

Code Values Not Applicable

Rules:

- Required for all SUD clients after the assessment is complete.

Data Use:

- This creates a unique record in the ASAM table for when there is a subsequent evaluation from the same provider.

Validation:

- Must be valid code.
- Does not allow special characters except Dash (-), Underscore (_), and Period(.).

ASAM Assessment Date

Section: ASAM Placement

Definition:

Date the assessment occurred.

Code Values Not Applicable

Rules:

- Only one option allowed.
- Required for all substance use disorder clients.

Frequency:

- Collected on date of first service or whenever possible and updated whenever status changes.

Data Use:

Validation:

- Must be valid code.

ASAM Level Indicated

Section: ASAM Placement

Definition:

Clinician placement of client ASAM Level.

Code Values:

Code	Adolescent	Adult	Definition
0			Place holder for people who are truly not at any risk.
0.5	Early Intervention	Early Intervention	Assessment and education for at-risk individuals who do not meet diagnostic criteria for substance use disorder.
1	Outpatient Services	Outpatient Services	Less than 9 hours of services/week (adult); less than 6 hours/week (adolescents) for recovery or motivational enhancement therapies/strategies
1-WM (Level of Withdrawal Management (WM) for Adults)	This service is generally connected to additional adolescent focused youth services and is not a stand-alone level of care.	Ambulatory WM without Extended On-Site Monitoring	Mild withdrawal with daily or less than daily outpatient supervision; likely to complete withdrawal management and to continue treatment or recovery.
2-WM (Level of Withdrawal Management (WM) for Adults)	This service is generally connected to additional adolescent focused youth services and is not a stand-alone level of care.	Ambulatory WM with Extended On-Site Monitoring	Moderate withdrawal with all day withdrawal management support and supervision; at night, has supportive family or living situation; likely to complete withdrawal management.
2.1	Intensive Outpatient Services	Intensive Outpatient Services	9 or more hours of services/week (adults); 6 or more hours/week (adolescents) to treat multidimensional instability

BHDS Data Guide

[Return to Table of Contents](#)

2.5	Partial Hospitalization Services	Partial Hospitalization Services	20 or more hours of services/week for multidimensional instability not requiring 24-hour care
3.1	Clinically Managed Low-Intensity Residential Services	Clinically Managed Low-Intensity Residential Services	24-hour structure with available trained personnel; at least 5 hours clinical services/week
3.2-WM (Level of Withdrawal Management (WM) for Adults	This service is generally connected to additional adolescent focused youth services and is not a stand-alone level of care.	Clinically Managed Residential WM	Moderate withdrawal, but needs 24-hour support to complete withdrawal management and increase likelihood of continuing treatment or recovery
3.3	This level of care not designated for adolescent populations.	Clinically Managed Population Specific High Intensity Residential Services	24-hour care with trained counselor to stabilize multidimensional imminent danger. Less intensive milieu and group treatment for those with cognitive or other impairments unable to use full active milieu or therapeutic community.
3.5	Clinically Managed Medium-Intensity Residential Services	Clinically Managed High-Intensity Residential Services	24-hour care with trained counselors to stabilize multidimensional imminent danger and prepare for outpatient treatment. Able to tolerate and use full active milieu or therapeutic community.
3.7	Medically Monitored High-Intensity Inpatient Services	Medically Monitored Intensive Inpatient Services	24-hour nursing care with physician availability for significant problems in Dimension 1, 2, or 3. 16 hour/day counselor availability

3.7-WM (Level of Withdrawal Management (WM) for Adults)	This service is generally connected to additional adolescent focused youth services and is not a stand-alone level of care.	Medically Monitored Inpatient WM	Severe withdrawal and needs 24-hour nursing care and physician visits as necessary; unlikely to complete withdrawal management without medical, nursing monitoring
4	Medically Managed Intensive Inpatient Services	Medically Managed Intensive Inpatient Services	24-hour nursing care daily physician care for severe, unstable problems in Dimension 1, 2, or 3. Counseling available to engage patient in treatment.
4-WM (Level of Withdrawal Management (WM) for Adults)	This service is generally connected to additional adolescent focused youth services and is not a stand-alone level of care.	Medically Managed Intensive WM	Severe, unstable withdrawal and needs 24-hour nursing care and daily physician visits to modify withdrawal management regimen and manage medical instability.
OTP (LEVEL 1)	Some OTPs not specified for adolescent populations.	Opioid Treatment Program (LEVEL 1)	Daily or several times weekly opioid agonist medication and counseling available to maintain multidimensional stability for those with severe opioid disorder

Historical Code Values:

Code	Value	Effective Start Date	Effective End Date

Rules:

- Only one option allowed.
- Required for substance use disorder clients.

Return to Inpatient/ Revocation Authority

Section: DCR Investigation

Definition:

Identifies the basic reason for revoking a person. See RCW 71.05.340(3)(a) & (b).

Code Values:

Code	Value	Definition
1	DCR determined detention during course of investigation per RCW 71.05.340(3)(a).	
2	Outpatient provider requested revocation per RCW 71.05.340(3)(b) or RCW 71.34 for kids.	
9	N/A	

Historical Code Values:

Code	Value	Effective Start Date	Effective End Date

Rules:

- Only one option allowed.
- Only collected for persons being investigated under the Involuntary Treatment Act

Frequency:

Data Use:

Validation:

- Must be valid code.

History:

Notes:

- This element is specific to returning a client under less restrictive alternative (LRA) to inpatient treatment and the filing of a revocation petition. It distinguishes legal criteria used for person on LRA being returned to inpatient treatment. Use code "9" for all cases where the person is placed on LRA or not committed.

DCR Agency NPI

Section: DCR Investigation

Definition:

- Indicates the NPI for the Agency that employs the DCR that provides ITA investigation services.
- If the DCR is employed by multiple agencies, then report only one of the agencies.
- If the DCR is does not have NPI then report SUBMITTER ID.

Code Values Not Applicable

Historical Code Values:

Code	Value	Effective Start Date	Effective End Date

Rules:

- Only one option allowed.
- Only collected for persons being investigated under the Involuntary Treatment Act

Frequency:

Data Use:

Validation:

- Must be valid code.

History:

Notes:

Investigation Referral Source

Section: DCR Investigation

Definition:

Indicates the source of the referral for an ITA investigation.

Code Values:

Code	Value	Definition
1	Family: Spouse, parent, child, sibling	
2	Hospital	
3	Professional: Physician, Behavioral Health Treatment Provider, Child/Adult Protective Services	
4	Care Facility: Assisted Living, adult family homes, nursing homes, behavioral health residential setting, rehabilitation facility	
5	Legal Representative: The person with legal responsibility over/for the individual	
6	School: primary, secondary, or post-secondary school	
7	Social Service Provider	
8	Law Enforcement	
9	Community: landlord, business, neighbors	
10	Other	
11	Referral from MCR to DCR	

Historical Code Values:

Code	Value	Effective Start Date	Effective End Date

Rules:

- Only one option allowed.
- Only collected for persons being investigated under the Involuntary Treatment Act.

Notes:

Hearing Outcome

Section: ITA Hearing

Definition:

Indicates the outcome of an Involuntary Treatment Act court hearing. Indicates the type of commitment, if any, as a result of a court order.

Code Values:

Code	Value	Definition	Facility NPI
0	Dismissed	Dismissal by a court order	
1	14 Day MH Commitment	Court order for up to 14 days treatment	Required
2	90 Day MH Commitment	Court order for up to 90 days treatment	Required
3	180 Day MH Commitment	Court order for up to 180 days treatment	Required
4	90 Day MH LRA	Court order for 90 days of Less Restrictive Treatment	
5	180 Day MH LRA	Court order for 180 days of Less Restrictive Treatment	
6	Agreed to Voluntary Treatment	Person agrees to voluntary treatment	
7	Revoke LRA	Court order revocation of a LRA court order	Required
8	Reinstate LRA	Discharge of person on the original LRA order	
9	5 Day Commitment under Joel's Law	Court order for 120 hours Treatment from a Joel's law petition	Required
10	Dismissal of petition filed under Joel's Law	Court order dismissing a Joel's law petition	
12	90 Day Assisted Outpatient Treatment Order	Court order for 90 days Assisted Outpatient Treatment	
14	14 Day SUD Commitment	After 4/1/18 court order for 14-day SUD Treatment	Required
15	90 Day SUD Commitment	Nonexistent order	Required
16	180 Day SUD Commitment	Nonexistent order	Required
17	90 Day SUD revocation	After 4/1/18 court order for revocation of a 90-day SUD LRA order	Required
18	180 Day SUD revocation	Nonexistent order	Required
19	90 Day SUD LRA	Court order for 90 days of less restrictive alternative order for SUD treatment	
20	180 Day SUD LRA	Nonexistent order	
21	90 Day MH Subsequent Commitment	Court ordered MH extension for up to 90 days treatment	Required
22	180 Day MH Subsequent Commitment	Court ordered MH extension for up to 180 days treatment	Required
23	90 Day MH LRA Extension	Court ordered MH extension for up to 90 days of Less Restrictive Treatment

Mobile Crisis Response 165.01

Mobile Crisis Response Type

Section: Mobile Crisis Response

Definition:

Mobile Crisis Response are community services provided to individuals experiencing, or are at imminent risk of experiencing, a behavioral health (BH) crisis. The goals of these services are engagement, symptom reduction, and stabilization.

Mobile Crisis Response is intended to:

- De-escalate crisis situations.
- Relieve the immediate distress of individuals experiencing a crisis situation.
- Reduce the risk of individuals in a crisis situation doing harm to themselves or others; and
- Promote timely access to appropriate services for those who require ongoing mental health or co-occurring mental health and substance abuse services. Mobile crisis response (on-site, in-person)
- Mobile crisis response follow-up.
- Telehealth Service (virtual, in-person, excludes crisis call center responses)
- Telehealth follow-up

Only submit this transaction if it is a mobile crisis response service.

Code Values:

Code	Value	Definition
01	Mobile Crisis Response	
02	Mobile Crisis provided via Telehealth	

Rules:

- Only one option allowed.

Event Start Date

Section: Mobile Crisis Response

Definition:

Date the request is sent to the mobile crisis response team, including both traditional MCR teams and those responding via telehealth.

Code Values Not Applicable

Rules:

- Only one option allowed.
- An individual can have only one start date during a single encounter.

Frequency:

Data Use:

Validation:

- Must be valid date.

History:

Notes:

Event Start Time

Section: Mobile Crisis Response

Definition:

Time of day the mobile crisis team gets the referral from the referral source, this includes teams who respond using telehealth services as well. This is used to separate multiple crisis event for the same person on the same day.

Code Values Not Applicable

Rules:

- Only one option allowed.
- Submit time values using a 24-hour clock.

Frequency:

Data Use:

Validation:

- Must be valid time.

History:

Notes:

Mobile Crisis Response Referral Source

Section: Mobile Crisis Response

Definition:

Indicates the source of the referral for an MCR.

Code Values:

Code	Value	Definition
1	Family or Friend: Spouse, parent, child, sibling	
2	Hospital	
3	Professional	Examples: Physicians, Behavioral Health Treatment Providers
4	Care Facility	Examples: Assisted Living Facilities, Adult Family Homes, Nursing Homes, Behavioral Health Residential Setting, Rehabilitation Facilities
5	Legal Representative: The person with legal responsibility over/for the individual	
6	School: post-secondary school	Examples: Community College, College or University, Trade School
7	Social Service Provider	Examples: Department of Social and Health Services, Housing providers, Adult Protective Services
8	Law Enforcement	
9	Community: landlord, business, neighbors	
10	Self-Referral	
11	Crisis Call Center Referral	
12	Designated Crisis Responder	
97	Other

Notes:

Mobile Crisis Response Outcome

Section: Mobile Crisis Response

Definition:

The outcome(s) of the MCR encounter. Select only one option.

Code Values:

Code	Value	Definition
1	Routine Follow-up completed	May include referrals
2	Stabilized no additional services needed	Stabilized no follow up needed
3	Stabilized with follow up recommended	Either MCR follow up or referral given for independent follow-up
4	Transport to crisis triage/stabilization	Transport provided by MCR or other support team to crisis/triage, voluntarily by individual
5	Transport to community hospital (includes ER)	Transport provided by MCR or other support team to community hospital, voluntarily by individual
6	Police/911	Case handed off to police or 911
7	DCR for ITA evaluation/investigation Authorization	Case handed off to DCR
8	Unable to locate caller	MCR responder unable to meet with individual as person had departed from the agreed upon location.
97	Other	Transport to shelters (homeless, domestic violence, etc.) or other safe location, voluntarily by individual or other selections not covered.

21	Other	

Historical Code Values:

Code	Value	Effective Start Date	Effective End Date

Rules:

- Required field for all clients receiving Substance Use Disorder services.
- Reported at admission, discharge, and updated at least every 90 days or upon change whichever comes first.
- A Substance (except for “None”) cannot be selected more than once.

BHDS Data Guide

[Return to Table of Contents](#)

- 
- The same substance(s) must be included in the report at admission, at least every 90 days or upon change whichever comes first, and at discharge. The purpose of this is to detect how frequency and method of use change for the 3 substances between admission and discharge. If substance 2 & 3 were originally reported as null, these can be updated in the course of treatment, and must be the same substances reported at discharge.
 - May have different substances for different programs. Substances do not have to be consistent across all programs.

Frequency:

- Collected on date of first service or whenever possible and updated whenever status changes.

Data Use:

- Substance Abuse Prevention and Treatment Block Grant (SABG) - Treatment Episode Data Set (TEDS) Reporting

Validation:

- Must be valid code.

History:

Notes:

Age at First Use (1, 2, 3)

Section: Substance Use

Definition:

Indicates the age at which the client first used the specific substance.

Code Values:

Code	Value	Definition
0	Client born with a substance use disorder resulting from in-utero exposure	
1-98	Age at First Use, in years	
99	Not applicable	

Historical Code Values:

Code	Value	Effective Start Date	Effective End Date

Rules:

- Only reported for substance use disorder clients.
- Required if any substance other than "None" is reported in the SUBSTANCE element.
- Must be less than or equal to client's age when reported.
- Reported at admission, discharge and at least every 90 days or upon change whichever comes first.

Funding 140.01

Type of Funding Support

Section: Funding

Definition:

This field specifies type of funding support for clients.

Code Values:

Code	Value	Definition
01	Medicaid only	
02	Medicaid and non-Medicaid sources	
03	Non-Medicaid only	
97	Unknown	Individual client value is unknown.
98	Not collected	State does not collect this field.

Rules:

- For the first-year reporting is recommended and may be required in future years. Report type of funding support each client had throughout the reporting period.

Frequency:

Data Use:

- SAMHSA MH-CLD Field Number O-03

Validation:

- May not be Null or Blank.
- Valid value from table; leading zero is required.

Notes:

Source: https://www.dasis.samhsa.gov/dasis2/mhclld/mh_cld_final_instruction_manual.pdf

Source of Income/Support

Section: Funding

Definition:

Identifies the client's principal source of financial support. For children under 18, this field indicates the parents' primary source of income/support.

Code Values:

Code	Value	Definition
1	Wages/Salary	
2	Public Assistance	
3	Retirement/Pension	
4	Disability	
20	Other	
21	None	
97	Unknown	Individual client value is unknown.
98	Not collected	State does not collect this field. This code should also be used when the state collects only a subset of the categories.

Rules:

- Reporting of this field is recommended for both substance use and mental health clients. States are encouraged to report data for all categories in the list of valid entries but reporting a subset of the categories is acceptable.
- For children younger than 18 years old, report the primary parental source of income/support.

Frequency:

Data Use:

- SAMHSA TEDS Field Number SUDS 9 (admission)

Validation:

- May not be Null or Blank.

Block Grant Funded Services

Section: Funding

Definition:

This field specifies if any of the services and supports clients received were paid for by the SAMHSA Mental Health Block Grant (MHBG) or Substance Abuse Block Grant (SABG).

Code Values:

Code	Value	Definition
1	Yes	MHBG used to pay for services and supports
2	No	MHBG funds were not used
3	Yes	SABG used to pay for services and supports
4	No	SABG funds were not used
5	None	Block Grant funding does not apply
97	Unknown	Individual client value is unknown.
98	Not collected	Field is not collected

Rules:

- For the first-year reporting is recommended and may be required in future years.
- If the client is receiving services funded by both SABG and MHBG then two separate transactions need to be sent to reflect that. One transaction reflecting the SUD services and one for the MH funded services.

Frequency:

- Report if the client received any services or supports paid for by the MHBG or SABG at any time throughout the reporting period.

Data Use:

- SAMHSA MH-CLD Field Number O-04

Validation:

- May not be Null or Blank.

Notes:

30506	Invalid Co-Responder code (within parsed string)
30507	Invalid Referral Given code
30508	Invalid MCR Outcome code
30509	Invalid MCR Agency NPI
30510	Invalid MCR Servicing Provider NPI
99999	Temp error number place holder

Notes:

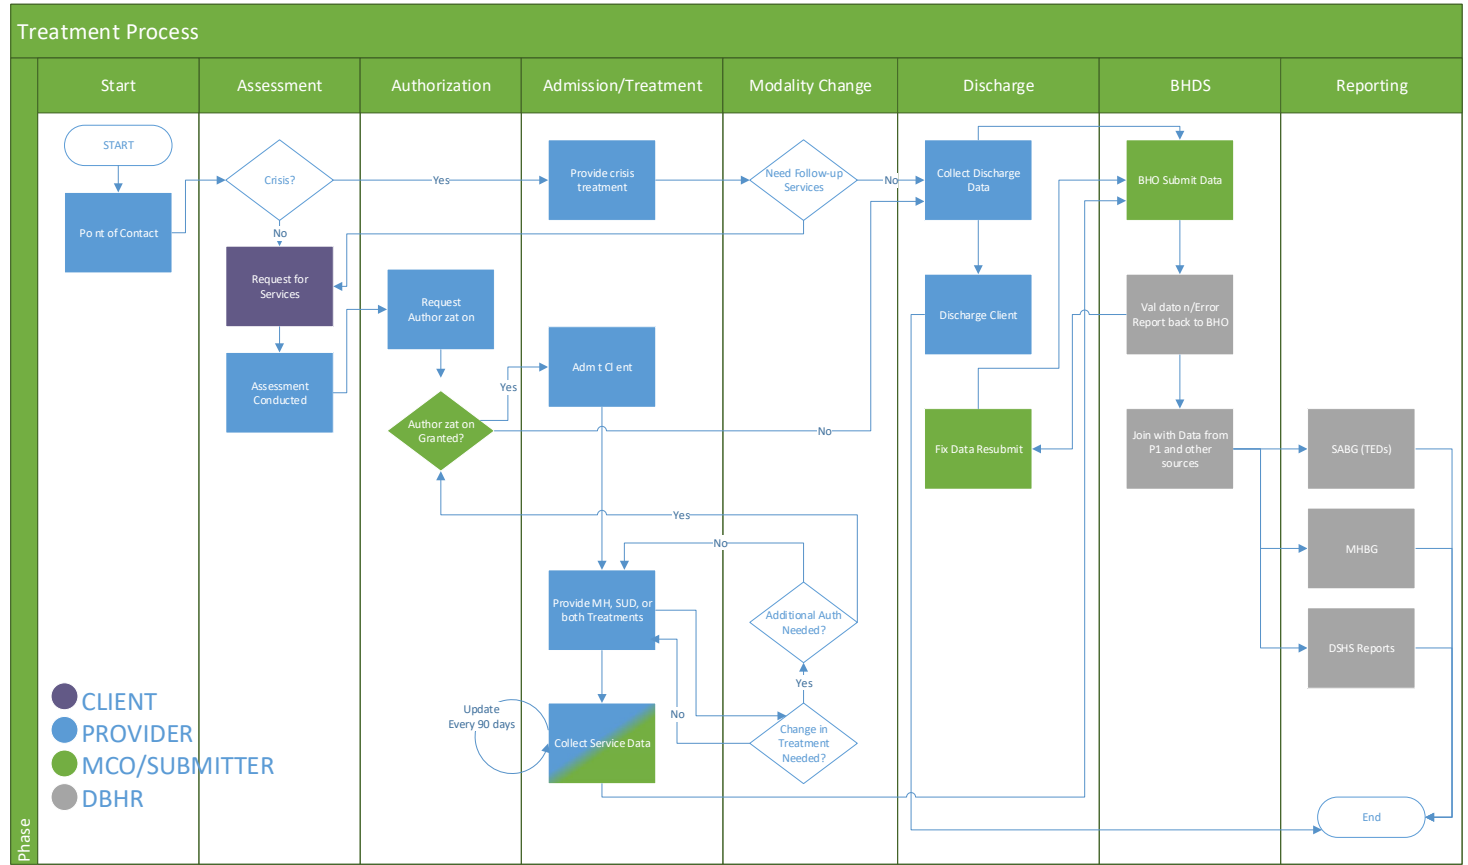

A blank response means the file was rejected, or an unrecoverable error occurred.

Appendix C: Entity Relationship Diagram (ERD)

Appendix D: Process Flow Chart

These flowcharts are meant to provide an overview of the process and not as a requirement or meant to capture every scenario.

BHDS Data Guide

[Return to Table of Contents](#)

Appendix E: Submission Instructions

File naming convention for Supplemental Data Submissions submitted on behalf of another entity

Name files correctly by following the file naming standard below. Do not exceed 50 characters:

<Submitter ID>. <Batch Date>. <Batch Number >. <MCO ID>.txt

- <Submitter ID> – The Submitter ID. Entity who is submitting to HCA. (Same as the 7-digit ProviderOne ID plus the 2-digit location code)
- <Batch Date> – The date a batch file of transactions was created
- <Batch Number> – A sequential 5-digit number using leading zeros
- <MCO ID> – The MCO ID that the file is being submitted on behalf of (Same as the 7-digit ProviderOne ID plus the 2-digit location code)

An example of an entity submitting files on behalf of another entity:

205437602.<Batch Date>. <Batch Number>.105010110.txt

File naming convention for Supplemental Data Submissions when not submitting on behalf of another entity

Name files correctly by following the file naming standard below. Do not exceed 50 characters:

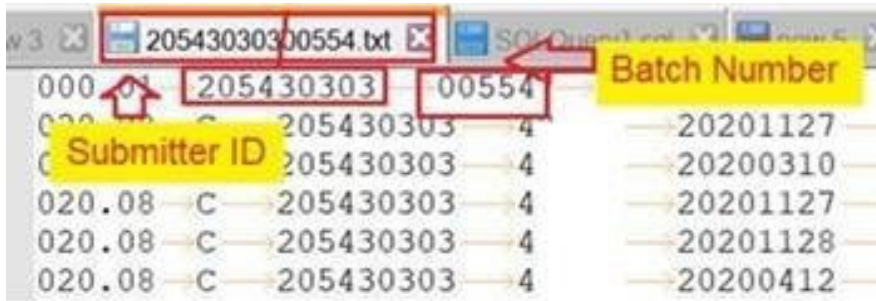

- <Submitter ID> – The Submitter ID. Entity who is submitting to HCA. (Same as the 7-digit ProviderOne ID plus the 2-digit location code)
- <Batch Number> – A sequential 5-digit number using leading zeros.

An example of an entity submitting files:

105020603.<Batch Number>.txt

Validation:

- The filename and the header (000.01) row must match on the Submitter ID and the batch number.

The image shows a screenshot of a text file named '20543030300554.txt'. The header row (000.01) is highlighted with a yellow box and contains the text: '000.01 205430303 00554'. The '205430303' is labeled 'Submitter ID' and '00554' is labeled 'Batch Number'. Below the header are several data rows, each starting with '020.08 - C - 205430303 - 4' followed by a date. The dates are: 20201127, 20200310, 20201127, 20201128, and 20200412. Red arrows point from the header values to the corresponding values in the data rows.

Header	Submitter ID	Batch Number
000.01	205430303	00554
020.08 - C - 205430303 - 4	205430303	20201127
020.08 - C - 205430303 - 4	205430303	20200310
020.08 - C - 205430303 - 4	205430303	20201127
020.08 - C - 205430303 - 4	205430303	20201128
020.08 - C - 205430303 - 4	205430303	20200412

- In the filename and header row, Submitter must use their active Submitter ID.
- The transaction rows should use the Submitter ID that corresponds to the date of the transaction.
- The Submitter ID should be the one that is active with the service episode start date.

Notes:

File Size: No more than 20,000 records are to be submitted in a single file.

SFT Upload Instructions

- Each organization will have a login account that is made up of the initials, the type of user (MCO/BH-ASO), and the number “1”. The test accounts have a “-t” in the login name.
- Using Community Health Plan of WA as an example:
 - “hca-communityhealthplanswa” is the Production account.
 - “hca-communityhealthplanswa-test” is the Test account

The contractor will use their account to log into the SFTP. The SFTP account folders look like this:

Name	Size	Changed	Rights
..		12/30/1899 12:00:00 AM	rwxr-xr-x
BatchReport		9/18/2020 10:06:52 AM	rwxr-xr-x
NewBatch		9/17/2020 6:48:29 PM	rwxr-xr-x
UnScheduled		12/30/1899 12:00:00 AM	rwxr-xr-x
DBExtracts		12/30/1899 12:00:00 AM	rwxr-xr-x

Once logged in with the production account the contractor will place the txt files in the production folder corresponding to their account if they are submitting production data. If they are testing, they will use the testing login and place a text file in the test account. Only txt files will be accepted.

The SQL Agent job runs every hour of the day from 6am to 6pm, 7 days a week to process the files, unless there is an “urgent” need. If there is an urgent need the contractor needs to contact IT for processing by submitting a help ticket to MMISHelp@hca.wa.gov

The job processes the file and produces an error report that gets returned to the contractor with error information regarding which records were processed. Validation of the data will be based on date in the transaction (i.e. Effective Date).

For issues related to BHDS access or technical submission questions, contact the HCA Service desk at ServiceDesk@HCA.wa.gov.

For all other BHDS or BHDG related questions please contact ProviderOne Help at mmishelp@hca.wa.gov.

Appendix F: Instructions for submitting License Number in P1

This is the site-specific Licensed Number assigned by the Department of Health and called the DOH License # (highlighted in blue on the picture). Provide just the certification number (in blue highlight), DO NOT use the DSHS-DBHR Legacy Number.

Found here: <https://fortress.wa.gov/doh/facilitysearch/Default.aspx>

Select one of the categories that includes “Behavioral Health Agency” for the facility type.

This number is not the NPI number. Provider One does not validate this number.

Appendix G: Primary Language Code List

https://www.loc.gov/standards/iso639-2/php/code_list.php

Codes submitted should be the first 3 letters. If there are two codes for a particular language they can be used interchangeably, but preferably the bibliographic version marked with an asterisk (*) of the code is used.

Note: It is not mandatory to use all the language codes and each contractor is able to choose a set of common language codes to use. Once a shorter list for a specific provider is chosen code “und” = undetermined can be used for languages not on the chosen shorter list.

ISO 639-2 Code	English name of Language
abk	Abkhazian
ace	Achinese
ach	Acoli
ada	Adangme
ady	Adyghe; Adygei

Appendix H: Nationally Accepted HIT Code References

Crosswalk values are added to their corresponding data element.

Standard Development Organizations	Description	Link
LOINC®	LOINC (Logical Observation Identifiers Names and Codes) common terminology for laboratory and clinical observations to send clinical data electronically from laboratories and other data who use the data for clinical care and management purposes.	https://loinc.org/about/
SNOMED CT®	SNOMED CT ((Systematized Nomenclature of Medicine--Clinical Terms) is a systematically organized computer processable collection of medical terms providing codes, terms, synonyms and definitions used in clinical documentation and reporting. SNOMED CT is considered to be the most comprehensive, multilingual clinical healthcare terminology in the world. SNOMED CT is one of a suite of designated standards for use in U.S. Federal Government systems for the electronic exchange of clinical health information.	https://www.nlm.nih.gov/healthit/snomedct/index.html
CDC/PHIN	CDC PHIN Vocabulary Coding System concepts are used when the public health concepts are not available in the Standard Development Organization (SDO) Vocabulary (e.g., SNOMED CT, LOINC). The CDC/PHIN includes code systems for: 1. Race & Ethnicity Code System 2. Race 3. Ethnicity Hierarchy	https://www.cdc.gov/phn/resources/vocabulary/index.html https://www.cdc.gov/phn/resources/vocabulary/index.html#3
OMB	OMB (Office of Management and Budget) established codes for race categories.	http://hl7.org/fhir/us/core/2017Jan/ValueSet-omb-race.html

Appendix I: Provider Entry Portal (PEP)

The Provider Entry Portal is used for non-tribal providers providing services to tribal members. Although the Provider Entry Portal (PEP) references this data guide, there are additional instructions specified in Provider Entry Portal materials that should be followed for complete transmission. If there are questions or if transactions are not accepted, please contact PEP support.

Appendix J: Criminal Justice Treatment Account (CJTA) (150.01)

Although the CJTA program references this data guide, there are additional transactions specified in CJTA guides that should be followed for complete transmission. Links to CJTA guides will be referenced here when available.

Appendix K: Guidance attachments

Closing Service Episode of Care Guidance

Purpose: Provide guidance on length of time for an episode to remain open from the last date of contact/visit for an enrollee receiving Behavioral Health Services including Mental Health and Substance Use Disorder.

SUD: If an Enrollee has not actively participated in treatment, HCA recommends closing the service episode after more than 45 days of no contact.

MH: If an Enrollee has not actively participated in treatment, HCA recommends closing the service episode after more than 90 days of no contact.

Before closing: The Contractor has demonstrated reasonable efforts, meaning at least 3 or more attempts to re-engage the Enrollee into services, the Contractor may choose to discharge the Enrollee from services.

Contractors and providers will work internally on policies and procedures regarding discharge guidelines that include outreach to the client before discharging.

Term	Definition	Clarification
1 st routine encounter	First non-crisis encounter following the intake/assessment	
Action Code	This is the code submitted by the user that is a status or change the user intended. How this is used is covered in the Add/Change Status section of the document.	
Agency	Providers, agencies, or entities providing services directly to clients in the community.	
Assessment	Clinical medicine, evaluation of the patient for the purposes of forming a diagnosis and plan of treatment.	In this context it is synonymous with intake in mental health.
Behavioral Health Supplemental Transaction	Transactions submitted to the BHDS, aka: non-encounter transactions	
BHDC	Behavioral Health Consolidation: The project effort to integrate both mental health and substance use disorder.	
BHDS	Behavioral Health Data System: This is the process for submission of the client-level data to DBHR.	
CDC /PHIN	CDC PHIN Vocabulary Coding System concepts are used when the public health concepts are not available in the Standard Development Organization (SDO) Vocabulary (e.g., SNOMED CT, LOINC). The CDC/PHIN includes code systems for: 1. Race & Ethnicity Code System 2. Race 3. Ethnicity Hierarchy	
Client	Person needing services	Person identified in BHDS
Clinician	Medical professional having direct contact with and responsibility for patients	
Data Element	Field of data	
Date of Request for Service	Date client asks for service. Can be done in via multiple methods such as phone call, walk in, referral, others requesting services on behalf of client.	
DBHR	Division of Behavioral Health and Recovery	
Discharge	Client no longer receives services from a particular contractor	
EDI	Electronic Data Interchange (EDI) is the computer-to-computer exchange of business data in standard formats.	
EDI 837	The EDI (Electronic Data Interchange) 837 transaction set is the format established to meet HIPAA requirements for the electronic submission of healthcare claim	

BHDS Data Guide

[Return to Table of Contents](#)

	information. The claim information included amounts to the following, for a single care encounter between patient and provider.	
EDI X12N	EDI X12 (Electronic Data Interchange) is data format based on ASC X12 standards. It is used to exchange specific data between two or more trading partners. Term 'trading partner' may represent organization, group of organizations or some other entity.	
Gain-SS	GAIN-SS (Global Assessment of Individual Needs-Short Screener)	
Identifier	Unique key for an entity	
Intake	The process of admission of an individual to a health facility, during which data regarding the health history and other pertinent personal information is gathered.	
LOINC	LOINC (Logical Observation Identifiers Names and Codes) common terminology for laboratory and clinical observations to send clinical data electronically from laboratories and other data who use the data for clinical care and management purposes.	
Contractor Administrator	The head of the organization at the level able to commit the organization and its resources into programs.	This does not necessarily mean the CEO, but often is at that level.
MCOs	Managed Care Organizations	Includes Managed Care Organizations and Behavioral Health-Administrative Service Organizations.
Mental Health	Mental health refers to our cognitive, behavioral, and emotional wellbeing - it is all about how we think, feel, and behave.	
MH-CIS	Legacy Mental Health Information System –Mental Health Consumer Information System	
Modality	The method of application of a therapeutic agent or regimen.	Specific to a substance use level of care
OMB	OMB (Office of Management and Budget) established codes for race categories.	
On change	Verification with client if information has changed.	
pre-intake	Prior to assessment/intake	
Provider Agency	Sites providing mental health and substance abuse services to clients.	
QHH	Qualified Health Home	
Quadrant Placement	Quadrant placement was defined using data that is routinely gathered in clinical care or available in administrative data sets (i.e., substance dependence diagnosis, Global Assessment of Functioning scores).	
Revised Code of Washington (RCW)	An RCW, or law, is the result of legislation that has been passed by the House and Senate and has been signed by the Governor. The Revised Code of Washington contains all laws that have been adopted in the State of Washington, as well as a history of all laws that have previously existed or been amended.	

BHDS Data Guide

SAMHSA	Substance Abuse and Mental Health Services Administration	
Service Episode	A service episode may be thought of as a container of services, which can be MH programs or SUD programs, a group of SUD programs that are related, or a combination of both MH and SUD services. The key boundary is that the services can only be provided by a single agency/provider. On the other hand, SUD programs occur within a single modality of service.	
Service Episode End Date	The date the episode of care (container) ended/closed by a provider agency.	
Service Episode Start Date	Start of services provided to a particular client, that contracting contractor is authorized to pay for.	
SNOMED	SNOMED CT ((Systematized Nomenclature of Medicine--Clinical Terms) is a systematically organized computer processable collection of medical terms providing codes, terms, synonyms and definitions used in clinical documentation and reporting. SNOMED CT is considered to be the most comprehensive, multilingual clinical healthcare terminology in the world. SNOMED CT is one of a suite of designated standards for use in U.S. Federal Government systems for the electronic exchange of clinical health information.	
SUD	Substance Use Disorder	
TARGET	Legacy SUD System - Treatment and Assessment Reports Generation Tool	
Transaction	A set of submitted data or date table. In the context of this guide, it is the set of data denoted with a number (020.27 – Client Demographics).	
Washington Administrative Code (WAC)	Regulations of executive branch agencies are issued by authority of statutes. Like legislation and the Constitution, regulations are a source of primary law in Washington State. The WAC codifies the regulations and arranges them by subject or agency.	
Withdrawal Management Services	Professional services to people in the process of screening, assessing, preparing, planning, and monitoring of withdrawal symptoms.
